Ensure costly cellular network connections are used appropriately

Integrated with Microsoft Product :
Windows 10

What Customer Problem Is The Integration Solving For:
Wandera enables companies to **manage employee usage risks** and **control mobile data costs** on any **Win 10 connected device**.

Partner Product Value Proposition Statement:
Wandera helps companies manage mobile data use on Windows 10 to control costs and stay compliant.
- Insights into Windows 10 mobile data usage
- Block apps only on certain networks (e.g., metered, Mi-Fi)
- Compatible with company infrastructure (e.g., VPNs)

Better Together Because:
Integration with Windows enables **both win32 and UWP app** support, and allows the service to be easily deployed using any package management solution, such as **SCCM**.

Product Pricing Model:
Per device, Per month.

Required Microsoft License:
No. Wandera **Exten** supports connected devices running Windows 10.
