CollabPoint

Improve Adoption with CollabPoint's Tailored Microsoft 365 Tenant Assessments

Business Challenge

Many organizations jump into a new project without conducting a thorough analysis of their Microsoft 365 environment. This causes an increased risk of project delays, frustrated users and the potential to negatively impact revenue streams.

Our Solution

CollabPoint will help guide project planning so you can accelerate delivery and minimize impact with a detailed and thorough assessment allowing you to define the source services, data, security and identities.

Tenant Assessment Includes:

- Reports & Consultation
- Users & Contacts
- Mailboxes & Public Folders

- SharePoint & OneDrive
- Teams, Groups & Memberships
- Device ID & Authentication

- Domains, Mail Flow, DNS
- Permissions & Forwarding
- Licensing & More

About CollabPoint: Experts in Business-First Technology Adoption

At CollabPoint, we are dedicated to transforming your organization by helping you to unlock the full power of your technology through adoption support, training and migration journey planning. From strategy to implementation and beyond, we will be there to help you maximize efficiency throughout your business to deliver greater ROI on your technology investments.
