

Crayon AI Envision Session

Crayon Artificial Intelligence (AI) Envision Session Leverages Microsoft Azure to Optimize the Way Business Challenges are Solved

About Crayon

Crayon Software Experts is a leading IT advisory firm in software and digital transformation services. With unique IP tools and skilled employees, Crayon helps optimize its clients' ROI from complex software technology investments.

Crayon AI and Machine Learning (ML) projects are hosted in Microsoft Azure and utilize leading learning technologies including Azure Databricks and Microsoft HDInsight. Crayon empowers companies through technology to modernize and optimize the way business challenges are solved

What is the Crayon AI Envision Session?

The Crayon AI Envision Session is a two-day in-person workshop to evaluate two use cases, determined by Crayon AI team and organization collaboration efforts, and develop a strategic roadmap for implementation.

Day 1

- Collaborate with Crayon data scientist and AI team, C-suite, and decision makers to explore and evaluate current AI strategy
- Enhance understanding of artificial intelligence
- Evaluate opportunities, advantages, and risks with AI implementation
- Identify business use cases within industry AI can solve and result in strategic advantages for organization
- Determine two use cases
- Begin data exploration

Day 2

- Continued Data exploration
- Strategic roadmap and recommendations for implementation delivered in seven business days

Microsoft Azure

Microsoft Azure is an ever-expanding set of cloud computing services to help your organization meet its business challenges. With Azure, your business or organization has the freedom to build, manage, and deploy applications on a massive, global network using your preferred tools and frameworks.

WHY AZURE

BE FUTURE-READY

Continuous innovation from Microsoft supports your development today, and your product visions for tomorrow. With 1000+ new capabilities in the past year, you can build on the latest advancements in AI, blockchain, Kubernetes, containers, and databases to keep you ahead of the curve.

Our enterprise grade analytics solution outperforms the competition, costs less, and is fully compatible with your existing development, BI, and data science tools.

BUILD ON YOUR TERMS

You have choices. With a commitment to open source and support for all languages and frameworks, build and deploy how you want to. Take advantage of the full-featured, integrated development environments with built-in support Visual Studio and Visual Studio Code, the most popular IDEs trusted by 15M+ developers.

We embrace open source, drive innovation through collaboration, and contribute back to the community.

OPERATE HYBRID SEAMLESSLY

On-premises, in the cloud, and at the edge—we'll meet you where you are. Integrate and manage your environments with tools and services designed for hybrid cloud.

Enhance security, simplify access, and set smart policies across your different environments with a single identity platform trusted by 90% of enterprises globally.

TRUST YOUR CLOUD

Get security from the ground up, backed by a team of experts, and proactive compliance trusted by enterprises, governments, and startups.

With a \$1B+ investment in security R&D and 3,500 cyber security experts, security is foundational for Azure.
