

Learn how to put next-generation Microsoft security tools to work for you.

MICROSOFT THREAT PROTECTION WORKSHOP

WORKSHOP HIGHLIGHTS

-  Review your security goals and objectives
-  Identify real threats in your cloud environment with Threat Check
-  Map identified threats to specific solution recommendations
-  Showcase security scenarios with product demos
-  Develop joint plans and next steps

“The Threat Protection Security Workshop helped us understand our maturity levels on different sectors of cybersecurity.”
-Harri Kivimaa, Head of End User Services, VTT

Do you know how many phishing attacks your organization has received? If employees are using the right password protocol? Whether personal data is being exposed? In short, is your organization’s cloud environment as secure as you think it is?

IMPROVE YOUR SECURITY POSTURE WITH A MICROSOFT THREAT PROTECTION WORKSHOP

Organizations today are managing a growing volume of data and alerts while dealing with tight budgets and vulnerable legacy systems. Get help achieving your broader security objectives—and identify current and real threats—by scheduling a Microsoft Threat Protection Workshop.

We can help you develop a strategic plan customized for your organization and based on the recommendations of Microsoft cybersecurity experts. You’ll gain visibility into immediate threats across email, identity, and data, plus clarity and support on how to upgrade your security posture for the long term.

WHY YOU SHOULD ATTEND

Given the volume and complexity of identities, data, applications, devices, and infrastructure, it’s essential to learn how secure your organization is right now, and how to mitigate and protect against threats moving forward. By attending this workshop, you can:

- Identify current, ongoing security threats in your cloud environment
- Walk away with actionable next steps based on your specific needs and objectives
- Document your security strategy for the benefit of key stakeholders
- Better understand how to accelerate your security journey using the latest tools

WHAT TO EXPECT

During this workshop, we'll partner with you to strengthen your organization's approach to cybersecurity. We'll help you better understand how to prioritize and mitigate potential attacks, with:

WE'LL WORK WITH YOU TO:

- Deep analysis of cyberattack threats that are found targeting your organization
- Actionable recommendations to help immediately mitigate the identified threats
- A detailed assessment of your IT and security priorities and initiatives, direct from cybersecurity pros
- An inside look at Microsoft's holistic approach to security, and how it relates to your organization
- Demonstrations of integrated security, including the latest tools and methods
- Long-term recommendations from Microsoft experts about your security strategy, with key initiatives and tactical next steps
