impact

POWER BI AND AZURE SYNAPSE: ONE-DAY WORKSHOP

Empower data architects and BI developers with the technical knowledge required to design an enterprise BI solution that uses both Azure Synapse Analytics and Power BI.

Labs will focus on how to work with Azure Synapse and Power BI, developing and optimizing a Power BI model, creating a model using Direct Query, and authoring a Power BI report.

PREREQUISITES

DIAD and basic experience working with Azure.

DELIVERABLES

Upon completion of the training, Impact will provide a certification to all attendees, along with files, reports, and dashboards generated throughout the sessions.
