

OXID eShop for Dynamics 365

For Microsoft Dynamics 365
for Finance and Operations

ESYON

Microsoft
Dynamics 365

CHALLENGE

Synchronising data manually between different systems and channels can be a big mess. Instead of creating successful store merchandising campaigns to effectively boost your online sales you get trapped in a time-consuming shop administration routine. That is about to end right now!

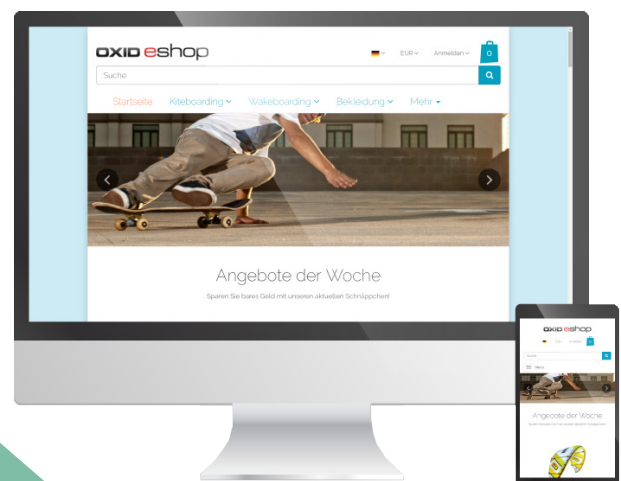

OUR SOLUTION - OXID ESHOP FOR DYNAMICS 365

Your shortcut to E-Commerce. With our fully integrated eCommerce solution for Microsoft Dynamics 365 for Finance and Operations you can have your B2B online stores seamlessly synced with your ERP system. Making full use of the existing product, customer and pricing database structures of your Dynamics 365 for Finance and Operations retail channel functionality you can automate your online business, saving time and money.

- Best Practice Dynamics 365 for Finance and Operations retail module integration
- Suitable for B2B & B2C Sales & Vendor portals
- Best in class eCommerce engine OXID eShop Enterprise 6.0
- Easy install from AppSource – without any middleware

An eCommerce solution deeply integrated with your ERP system is your fast track route towards Omnichannel – for more sales, brand awareness and less manual administration efforts.

The app combines two of the most compelling systems for e-commerce merchants:

Microsoft Dynamics 365 for Finance and Operations, the cloudbased ERP system, effectively manages customer, product and pricing structures, inventories and logistic procedures for all sales channels.

With OXID eSales you get a highly functional eCommerce Software ensuring the best ROI in class.

NEXT-LEVEL E-COMMERCE

OXID eShop is one of the leading platforms with best ROI in class.

Get a powerful, professional shop software and a state-of-the-art B2B eCommerce framework. Excellent performance, great user experience, great B2B features, responsive design and multi-user capabilities ensuring your success online now and in the future.

YOUR BENEFITS

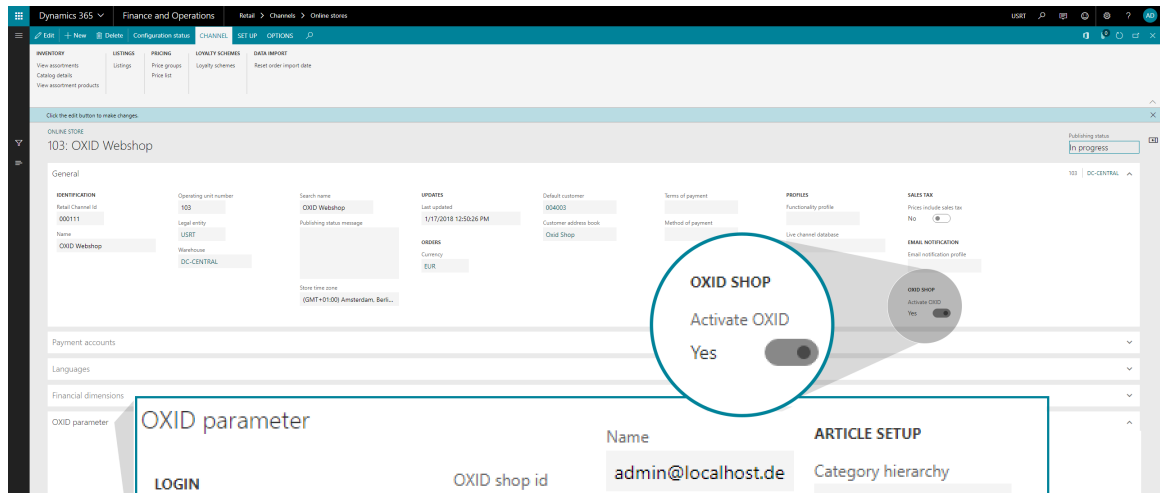

OXID eShop for Dynamics 365 for Finance and Operations will bring you numerous advantages.

- ✓ Upload your products automatically from Dynamics 365 to your online store – with all relevant attributes, variants and prices
- ✓ Stock levels, price adjustments, new items – all changes made in Dynamics 365 will be promptly updated in your online store
- ✓ Automatically creates shop accounts for every customer contact assigned to the directory of the OXID retail channel
- ✓ Automatic import of all OXID eShop orders to be processed in Dynamics 365
- ✓ 100-percent display capability of your trade agreements set-up – Serve each online-shop customer best with unlimited pricing options (customer- and variant-specific prices, bulk prices, season discounts and other validity limitations, specific currencies, ...)
- ✓ Real-time service portal allowing online-shop customers to review the latest status of all orders and invoice documents belonging to a particular account (real-time queries from Dynamics 365)

Thanks to this eCommerce integration for Microsoft Dynamics 365 for Finance and Operations, we can completely automate our online business and gain time for all the things, that really matter, such as effective merchandising.
