Envisioning Workshop with Eva healthcare: transforming serious incident investigations

What is the Eva Envisioning Workshop?

- We come to you for a one-day consultation about how you currently conduct serious incident investigations.

- We show you the Eva serious incident investigation application.

- A couple of your investigators will input one of your already completed reports into the application.

- We support you and your team to do this, offering expert advice and guidance.

What do you need to do?

- Secure one day's worth of time from the following staff:

  – A member of the governance team

  – The executive director responsible for SIs or a senior substitute

  – A couple of your experienced investigators

- Bring your laptops/devices and make sure you are connected to WiFi

- Bring a completed serious incident report from your organisation

Get in touch

Telephone: **020 3167 4911**
Email: **info@evaapplications.com**
Twitter: **@Evaapplications**

What you get:

- A complimentary consultation of your current serious incident practice, including advice and guidance from our most experienced investigators and consultants.

- The opportunity to trial the technology yourselves and see how it would work in practice, using one of your own real-life examples.

Chris Brougham is one of Verita's most experienced investigators and has conducted some of its most high-profile investigations and reviews. As head of training Chris has developed training courses on how to carry out a systematic incident investigation for serious incidents and complex complaints. Chris' experience has been integral in the development of Eva.

Martyna Marciniak is AlfaPeople's digital transformation expert, guiding customers on the building blocks for successful IT projects across the entire organisation. For every project, Martyna ensures that technology works to empower employees, increase the standard of delivery, improve efficiency, support an increasingly mobile workforce and complies with modern standards and regulations.
