UNITED STATES OF AMERICA

What is ComAX

- An **easy-to-setup, light-weight & smart EDI framework.**
- Based on a highly scalable and reliable architecture.
- Hosted on Cloud based failover cluster.
- Secure transmission of records on both sides.
- Live status of transmitted data and job status.

Integration Solutions: eCommerce Connectors

E-Commerce Platforms	
 Magento An Adobe Company  shopify  WooCommerce  BIGCOMMERCE  salesforce commerce cloud	
Marketplaces	Shipping Software
 amazon  ebay  JOOR	 ShipStation  shippit
Other Supported Integrations	
 FedEx  TrueCommerce  channeladvisor  SPS COMMERCE  ADS  stripe	

Deployment of Connectors

Our connectors are deployed on a middleware server of the client, so the data is entirely secured and merchants can manage the integration from a menu in the ComAX interface and configure and track accordingly.

They automatically sync inventory levels, product/item information, sales orders, customer data, order fulfillment info, shipping/tracking and billing data between Dynamics AX and your eCommerce platform

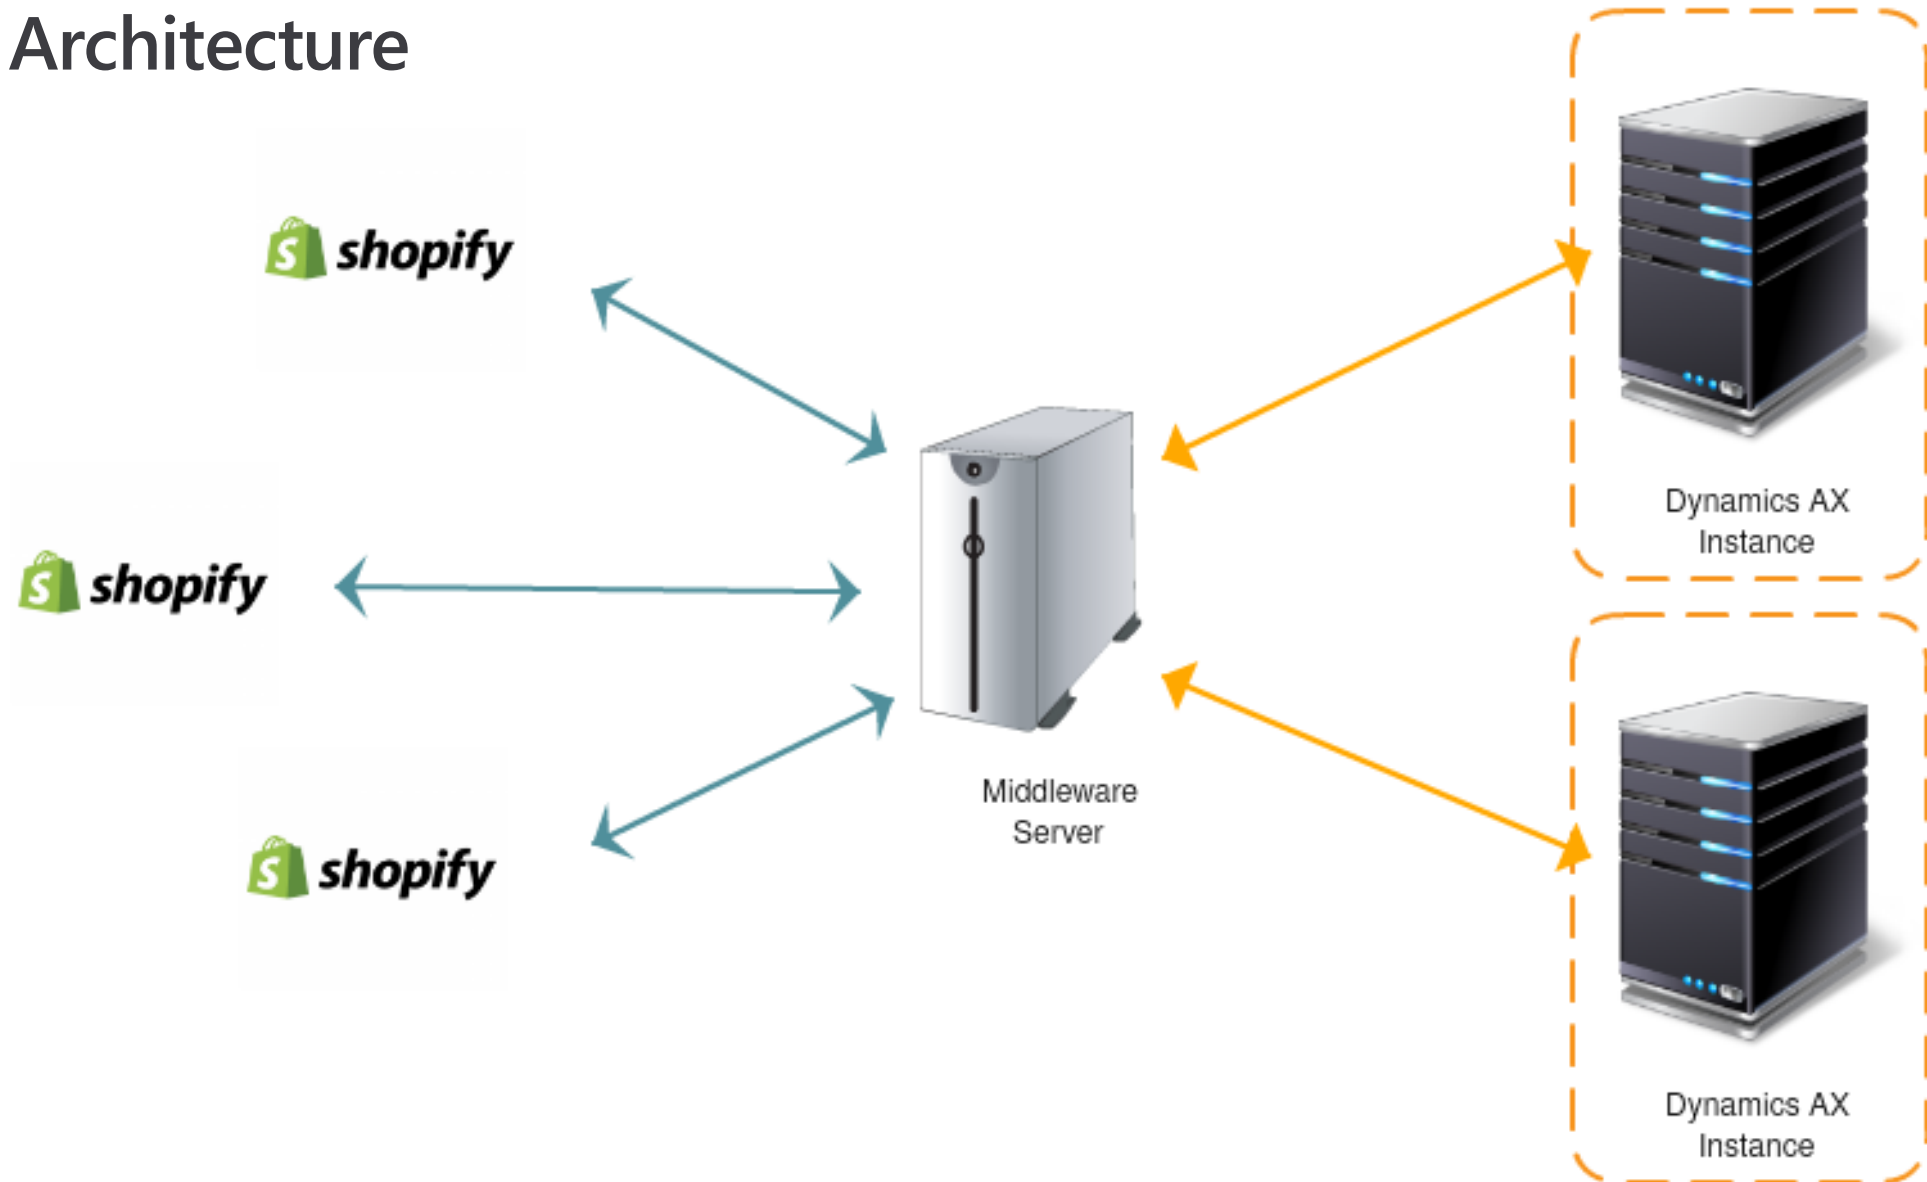

The **deployment time** for '**off the shelf**' integration is typically 2 weeks.

“I have worked with development teams before where on-time delivery was hit-and-miss and testing was not very thorough. This is thankfully not true with Folio3. It is so wonderful to be able to trust in a team that does high quality work, delivered on time, and well-tested before delivery.”

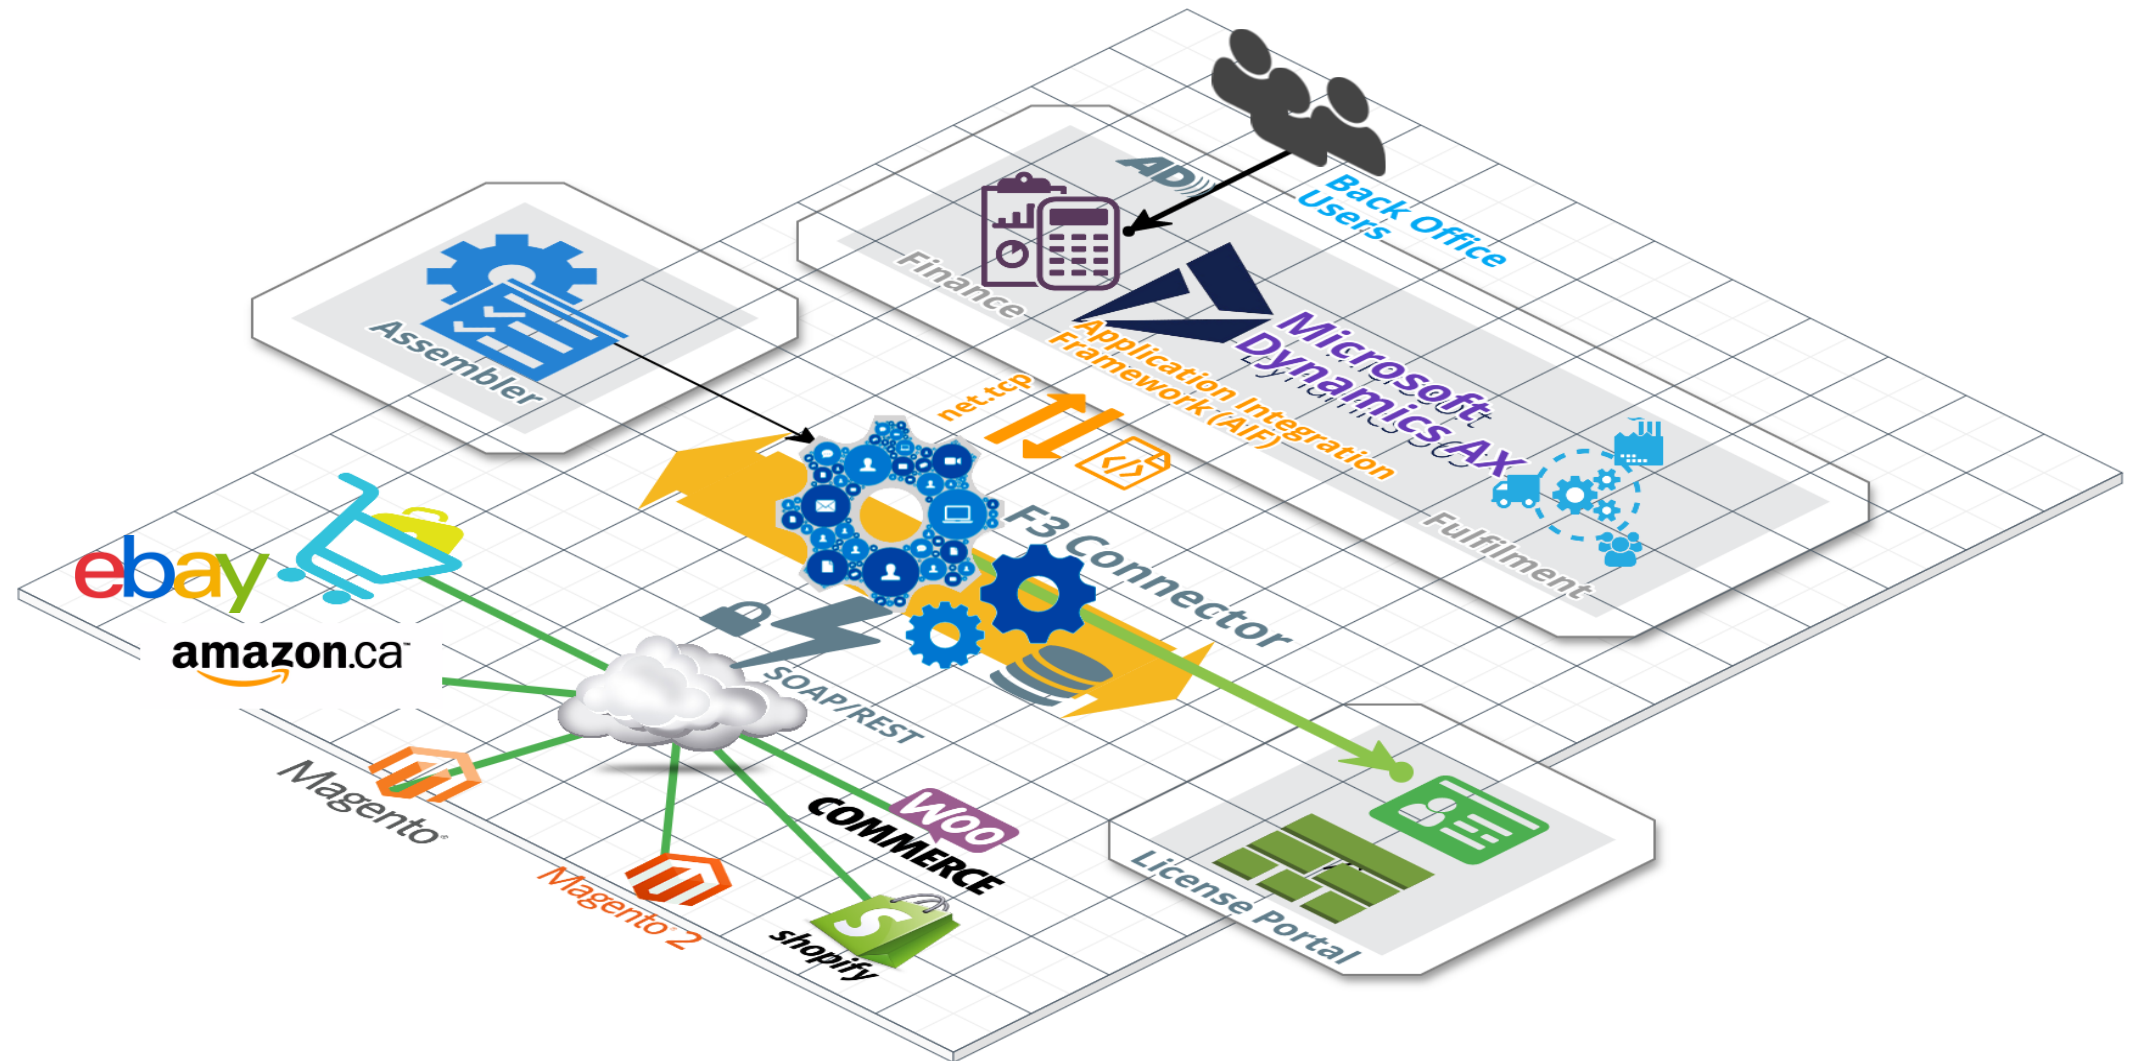

- Matt Klein
Director – Field Services
Sopris Systems

System Architecture

Software Architecture

Supported Versions/Editions

Microsoft Dynamics 365

- Finance and Operations
- Business Central

Microsoft Dynamics AX

- 2012 R1
- 2012 R2
- 2012 R3
