DXC Solutions

for DocuSign and Dynamics 365

Do business faster, reduce costs and increase efficiency

DXC Solutions for DocuSign and Dynamics 365 empower users to send, sign and approve documents quickly via electronic signature approvals.

Whether it's Sales Quotations, Purchase Orders, Sales or Purchase Agreements; say goodbye to printing, scanning, faxing, overnight shipping, or re-keying. Make it easier for your teams, customers and partners to do business, empowering them to sign documents from any browser, including mobile devices, within moments.

Easy, Straight-forward Operation

Sending a document for electronic signature has never been easier. Simply confirm and print the document within Microsoft Dynamics 365 for Operations. Documents are auto-routed to the right people, with reminders & expiration times:

- Decision makers can review & approve documents within minutes

- Signed agreements are legally binding and backed by a court-admissible audit trail.

DXC Solutions for DocuSign and Microsoft Dynamics 365 handles many different scenarios, including:

- Multiple signers
- Specified signer routing order
- Delegation of signing responsibility to others.

Benefits

- Sales - Close more deals faster, turning a verbal "yes" into a signed agreement or purchase order in minutes.

- Procurement/Supply Chain - Get approvals for purchases faster and seamless approvals for purchase agreements.

- Operational Efficiency - Reduce cost by automating paper business processes.

Complete & extensible

Automate simple agreements or the most complex multi-party transactions. Our open, standards based approach makes it easy to connect to your existing business systems.

Trustworthy & secure

Documents are encrypted and stored tamper-proof in the cloud, ensuring integrity during the transaction process and after completion. DocuSign warrants compliance with the December 1999 Federal ESIGN Act, which established a community framework for the users of electronic signatures on electronic contracts.
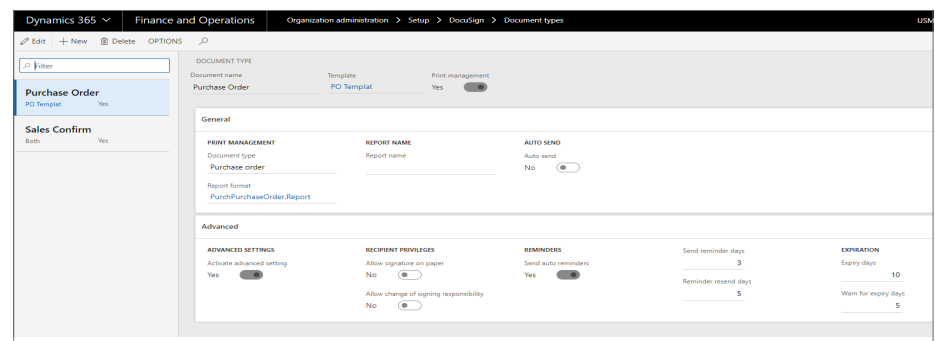

Gain more control and visibility into the process

DXC Solutions for DocuSign and Dynamics 365 provides an audit trail of edits, and notifies every signer when a document has been changed. This helps streamline a negotiation, reduce errors, shorten the sales cycle and lower cost.

With DXC Solutions for DocuSign and Dynamics 365, you can track the status of the document and once, completed view the signed document attached to the Dynamics for Operations record. Receive notification via email to confirm a document has been completed or declined.

Document types

Multiple document types can be preconfigured to utilise DocuSign advanced features and the ability to 'auto send' the document from AX directly to the signers.

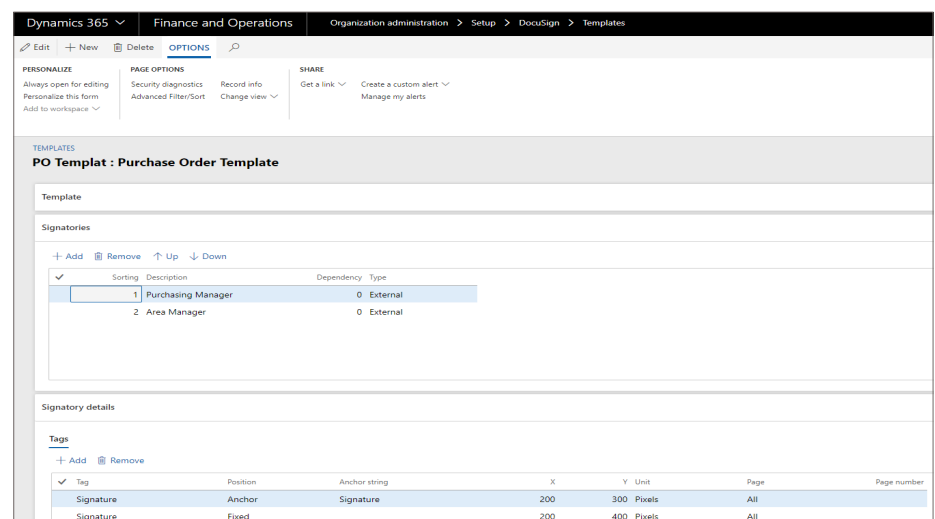

Templates

Templates – Document templates can be easily preconfigured allowing DocuSign 'tags' to be placed onto the AX document using either an Anchor (word) or fixed position.
