PDF Wizard for SharePoint

A simple and fast way for users to manipulate & convert PDF files into common formats within SharePoint.

Great alternative to individually licensed Acrobat

Add a Password to protect any PDF

**Available in the Microsoft AppSource**

SharePoint PDF Wizard is the simple, fast and clean way for users to manipulate and convert PDF files into common file formats from within SharePoint.

SharePoint PDF Wizard is feature packed and allows you to automatically generate, manipulate and output documents to a user specified SharePoint document library.

You can also create Templates with Pre-set Configuration Settings to perform operations on specific SharePoint document library files on a single click and/or triggered by an Event (Workflow).

Works directly from a Document Library, either by right clicking and using the context menu or allowing a workflow to perform the creation based a set of pre-defined templates and conditions.

Perfect for long term vault type storage in when saved in PDF/A format.

Cirrussoft have decades of combined experience with SharePoint consultancy & application development. We're here to help you, help your clients by creating best of breed, companion applications.
