

CUSTOMER SUCCESS STORY

“ezidox™ is by far the best application of software that I have taken from an external service provider. It is so on point. ezidox™ takes all the guess work out of the back office. This program is more important to my business than my CRM program, that’s how much it impacts the overall efficiency and productivity of our loan writing. In a single month I lifted my loan writing from \$3M to \$5M a month, this is a 67% increase in efficiency.”

Bernard Desmond - Loan Market

“One of the immediate positive impacts our business was able to measure as a result of the implementation of ezidox™, was the impressive reduction of time our admin staff member spent on document processing. Normally this task swallowed eight hours of her day, and this is now only taking up two hours a day, leading to a 75% increase in overall productivity.”

Jason Puxty - Mortgage Choice

SAVE MONEY

ezidox™ reduces the costs of collecting, verifying and processing documents by up to 90%.

The average time to collect and process a single transaction takes eight hours, with ezidox™ it takes two hours. This saves not only time but resource costs.

BUILD BUSINESS

Reducing the time to process documents accelerates transactions by 30% which means less drop-off and faster revenue.

ezidox™ increases business volume without increasing capacity, so more time and focus can be spent on business growth.

REDUCE RISK

Encrypting documents minimises risk of identity theft and the audit trail protects all parties.

ezidox™ has several layers of security to protect information, including top level SSL certificate, IP blocking, data encryption, multi-factor authentication and others.
