REQUEST. COLLECT. VALIDATE.

Faster Transactions.

Happier Customers.

ezidox™ untethers businesses from the daily grind of administrative tasks, increasing business volume without increasing capacity, so more time and focus can be spent on other aspects of the business.

ezidox™ is the fundamental component in efficient workflows involving multiple parties who exchange information and documentation through technology. ezidox™ accelerates transactions by simplifying and automating the way organizations request, collect and validate documents and information with their customers.

Document collection made easy.

ezidox™ - built for enterprises. Perfectly scalable, an award-winning global cloud platform that helps businesses connect with their customers faster.

Mobile app access on the go

Audit trail automated trail

Secure fully SOC2 compliant

Instant messages and automated reminders

Instant indexing and classification

Intuitive search and retrieval functionality

"ezidox™ is by far the best application of software that I have taken from an external service provider. It is so on point. ezidox™ takes all the guess work out of the back office. This program is more important to my business than my CRM program, that's how much it impacts the overall efficiency and productivity of our loan writing. In a single month I lifted my loan writing from $3M to $5M a month, this is a 67% increase in efficiency."

Bernard Desmond – Loan Market

"One of the immediate positive impacts our business was able to measure as a result of the implementation of ezidox™, was the impressive reduction of time our admin staff member spent on document processing. Normally this task swallowed eight hours of her day, and this is now only taking up two hours a day, leading to a 75% increase in overall productivity"

Jason Puxty – Mortgage Choice

ezidox™

Workflow made simple.
