

# MAX PAY GLOBAL

## AN ENTERPRISE PAYMENT SOLUTION

### FLEXIBILITY OF CHOICE

As a merchant who has chosen Microsoft Dynamics to run your business, you need to know that your Retail POS is going to connect with your existing bank and payment processor. Additionally, you need to have the flexibility of choice – to change providers as the business requires it without having to reinvest in technology or incur exorbitant development fees. With MAX Pay Global, you get to choose the payment processor, the bank, and the Point of Sale system best suited to your business, knowing that they will be seamlessly connected.

“A single payment connector for all your stores worldwide, allowing you to use multiple payment providers across your enterprise”

### PROCESSOR AND HARDWARE AGNOSTIC

With MAX Pay Global your investment is protected. We maintain the payment connector for the life of the customer, as well as provide versioning, so that when you upgrade to the latest version of Microsoft or the payment solution, the payment connector remains compatible. With continual additions of new payment providers, you can be assured your solution will maintain the flexibility of choice well into the future.

Retail Realm supports over 100 Payment Providers worldwide. Below is a sampling. For a complete list, contact us directly.

### COMPLEMENTARY MAX PAY GLOBAL PAYMENT OPTIONS

In addition to making changes within Dynamics 365 to accommodate customer-specific workflows, MAX Pay Global works with innovative payment technologies to continually bring improved functionality that will enhance the customer experience.

### CUSTOM DEVELOPMENT SERVICES

MAX Pay Global publishes its API for developers to customize an integration to third-party Point of Sale solutions, as well as other non-retail environments where payments are made such as healthcare, dental care, hotels, food and beverage, etc. Please contact us if you would like to explore this option.
