# Tax Processing

Taxes are complex and ever changing, but processing them doesn't have to be!

Tax processing lets you chose the settings that best fit your unique business needs. Establish custom tax calculations complete with tax schedules or utilize a built-in integration with Avalara's AvaTax*. The choice is yours, but the tax calculations are automatic.

Customizable Tax Calculation

- Customize tax calculations

- Create tax details (amount, percentage, etc.)

- Create tax schedules

- Assign tax schedules to documents

- Reduce manual tax entry and errors

Tax Integration with Avalara

- Eliminate maintenance of tax details and tax schedules

- Leverage industry leading capabilities of AvaTax

- Cloud storage of taxes applied

- Ease the reporting process for taxes

- Address validation against postal standards

*AvaTax integration requires a separate product license with Avalara.
