Route list and proof of service

RESIDENTIAL
Live view of truck location on pick-up route for citizens

JOB 510
JOB 511
JOB 512

Automate your service level verification

Remove administration heavy routing

Mobile app suite for waste customers

Service Verification Levels

Real-time intelligent proof of service shows you where your trucks are, where they have been and, most importantly, whether or not service was performed. Choose from three options to match your business needs, including one with an integrated RFID solution that tells you exactly which carts have been serviced.
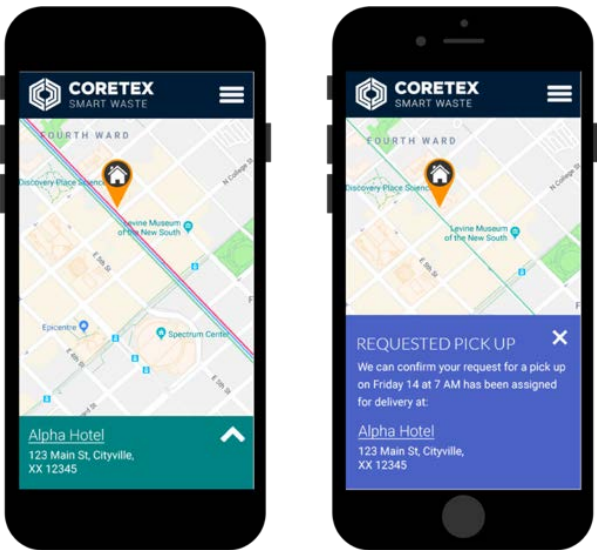

Job 323 - Pickup Missed

Recording Route

Smart Route Creation

Coretex allows your experienced drivers to run the optimal route, and from a replay, turn it into a live and measurable route - ensuring the most knowledgeable people are making the decisions that you can trust.

Waste Apps

Coretex has a range of applications for our waste customers, showing pick up days, how far away your pick up is and more. Covering residential to commercial, as well as dispatchers, Coretex is your one place of truth.
