STEP 1
Visit SafeWorkPro.com and sign up with a new account. We'll then send you an email with your login details.

STEP 2
Visit your relevant App store on a mobile or tablet, and download the SafeWorkPro app.

STEP 3
Log in using the supplied details you received from us.

STEP 4
Start adding staff members, uploading safety documents, and creating sites where staff usually work.

DID YOU KNOW?
SafeWorkPro also works in areas where internet connectivity isn't available!

EASY BUT EFFECTIVE.

Filling out safety documents has never been easier and more efficient than with SafeWorkPro.

Staff at the worksite complete documents such as risk assessments with their smartphones or tablet devices, and are given suggestions for job steps and general hazards.

These suggestions are based on previously completed risk assessments, which means that reliable information is delivered to each worker when they need it most.

To give managers a business insight into safety practices of their workforce, SafeWorkPro allows the suggestions to be filtered in real time. This ensures that communication between management and staff is clear and concise.

To ensure workers in areas beyond reliable internet coverage also experience these benefits, SafeWorkPro can be accessed offline on any iOS or Android device. Once the device re-establishes an internet connection, SafeWorkPro automatically updates the risk assessment data.

LET'S GET STARTED!

EASY
You can setup a SafeWorkPro account in less than 10 minutes.

ADAPTABLE
Identifying risk saves lives. The SafeWorkPro tool is applicable to any work site and streamlines communication between duty holders.

FAST
SafeWorkPro provides managers with real time insights into their business and streamlines how they manage safe operating practices.
