#### ABOUT TRIBUTE

## Building Better Leaders

Tribute is a modern mentorship app that radically redefines and improves mentorship for your company—and your employees.

Simple to use and easy to launch, Tribute harnesses the transformative power of personal stories and Shared Life Experiences™ to unlock the leadership potential in every employee to mentor and be mentored by others.

Built for the modern workforce, Tribute is a mobile-first app with a web-based analytics dashboard that manages your mentorship program for you. Saving you time and money and freeing you from the setup and maintenance hassles of most mentorship programs. Tribute also helps you showcase and track diversity and inclusion initiatives by measuring employee engagement, retention and satisfaction.

**Better for you, better for your employees, Tribute is redefining mentorship.**

#### THE TRIBUTE DIFFERENCE

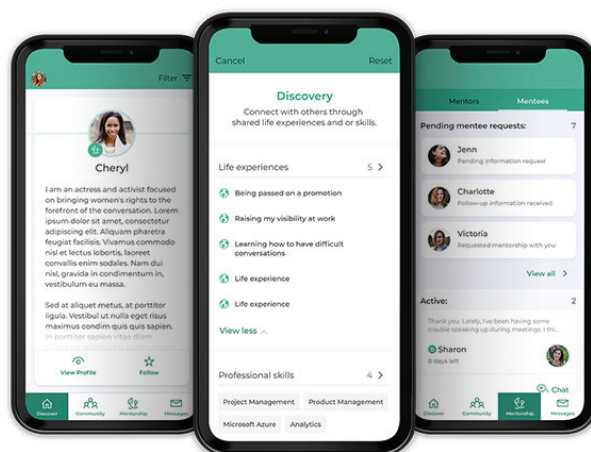

## Shared Life Experiences™: personal stories that create connection.

Stories inspire us to connect and act. That's why Tribute uses the transformative power of personal stories and Shared Life Experiences™ to create authentic connections, lasting relationships and professional growth, for both mentor and mentee.

In contrast, traditional mentorship programs are often based on little more than job titles and corporate credentials. The result can often be impersonal programs that don't meet participants needs, generate little enthusiasm and have high dropout rates.

When we share our life stories and experiences we create understanding and community that can lead to a more inclusive workplace. We're more open to diverse perspectives and create teams that reflect the world around us. Tribute helps professionals develop their leadership capacity by using their personal story and experiences to inspire and empower others and build better mentorship outcomes.
