

FOODWARE 365

CUSTOMER ITEM CATALOG

Configure the sales item catalog and make use of the Fast Order Entry to quickly add sales lines to the order. Save time on searching for the correct item number and validating references.

How do you make sure you promote the right items to your customer?

Create a customer item catalog with items that you want to promote and sell to specific customers. Add the customers' item numbers to simplify communication and prevent mistakes. Make use of item cross references to manage your items and customer items. Having them in Microsoft Dynamics 365 Business Central means that you have them available when you need them the most, anywhere, anytime.

Do you spent much time on entering a sales order?

With Foodware 365 Extended | Customer Item Catalog you can use the fast order entry option. Your sales persons will be notified when a Customer Item Catalog is available while creating the sales order. You can even supply your customer with an ordering Excel file. If he responds to the email and fills the item quantities, Foodware 365 will pick it up and process the Excel file for you resulting in a ready to go sales order.

Save time on ordering and focus on more important things today!

By managing your sales item catalog and making use of the fast order entry functionality you can create orders faster than ever before. This saves you valuable time that can be spent on bringing your company forward!

Features and benefits:

- Quickly create sales order lines using Fast Order Entry
- Automatically process emails into Sales Orders
- Register Sales Item Numbers and prevent communication mistakes
- Get notified on the presence of the sales item catalog for quick processing
- Get an overview on which items can be ordered to the customer while ordering
- Fully integrated with Item Variants & Cross References

About Foodware 365

Foodware 365 is the foremost food solution based on Microsoft Dynamics 365. Following years of experience and leveraging the feedback from thousands of users, Foodware 365 is the next generation of business apps for food companies running Dynamics 365, both Finance & Operations and Business Central. Even more, Foodware 365 goes beyond the business applications, aiming to leverage the full suite of the Microsoft platform including Office 365, the Microsoft Power Platform and numerous Microsoft Azure Services. Thanks to our modular approach, food companies have full flexibility with regards to the apps their organization needs.
