

✓ Get your diplomas certified **in one click**

✓ **100% blockchain** technology

2 out of 3 resumes contain fraudulent information, so reference checks are becoming the norm. **BCdiploma** allows you to protect your brand image and the value of your diplomas, to increase your attractiveness.

With its unique blockchain technology combined to the power of the Microsoft Azure cloud, **BCdiploma** offers an ultra-secure certificate dematerialization solution.

In one click, your graduates can prove the authenticity of their success!

Enhance your brand image with your partners

Increase the employability of your graduates

Expand your alumni network

Automate the issuance of your certificates

The best of the blockchain for higher education

Easy and reliable

Innovative and durable

Cost-effective

Each student receives a secure link that can be shared on social networks, resumes and that is **natively integrated into LinkedIn**

In one click, recruiters can check the authenticity of your students' diplomas and... hire them!

Microsoft is always striving to offer the best to its users, so it has teamed up with **BCdiploma** to provide a **new exclusive service** developed for universities and Grandes Ecoles.
