

approved contact

Problem

- There's not a standard tool that allows you to see open times on calendars outside of your company. Thus, scheduling meetings is painful.
- It requires:
 - Email/Texts/Chat
 - Multiple phone calls

Our Solution

A calendar application that allows users to see open times on their contacts calendars. Users can then easily schedule a meeting.

*We integrate calendars and scheduling into

- Text/Chat/BOT
- Websites
- Email
- Mobile
- Voice recognition
- Telephone & VOIP
- Teams

Reduce voicemail & email, save time by eliminating “phone tag”

*Patent-Pending

In Outlook, you can't see available times outside of your organization. With **Approved Contact** you can see available times for all attendees!

Teams

The screenshot shows the Microsoft Teams interface. The top navigation bar includes a search bar, the user's name 'Approved Contact', and window controls. The left sidebar shows navigation options: Activity, Chat, Teams, Meetings, Files, and a 'Show' button. The main content area displays a calendar for the 'Approved Contact Development' team, specifically the 'General' channel. The calendar is titled 'Free Time' and shows a grid of available times for participants. A red callout box with a dashed border is overlaid on the calendar, containing the text: 'You can see available times & schedule meetings, from Teams across EVERY calendar systems.' Below the calendar, there are 'Refresh' and 'Logout' buttons.
