- ◆ On-Premise
- ◆ Manufacturing

## WHY CHOOSE BIZSIGHT 365?

**User-friendly, simple to use, affordable, looks and feels like Office products you are already familiar with— makes it easy to learn! Do more for less!**

## FOCUSED ON SMALL BUSINESS

We bring our passion for small business with our experience in financial accounting software. We believe that the needs of a small business as it relates to software and technology, are similar to the larger ones, but with much fewer people and a small budget to operate/maintain it.

BizSight 365 leverages the current technologies to accomplish this, where few can do more, with fewer clicks! You worry about the business and not the software! The software helps you get better insight into your business, while you pursue your passion and dreams as a small business!

## CORE FUNCTIONALITY

Every financial accounting system needs to have the fundamentals. You should be able to invoice your customers, track what is owed to you, provide the ability to track and record your expenses, pay for the purchases you make, keep up with the accounting side, and provide your accountant with the information they need to support you.

While a financial accounting system is used by most as an invoicing tool and checkbook, others may go further reconciling accounts, managing inventory, tracking purchases and expenses, BizSight can do all of this and more!

## INVOICE CUSTOMERS AND RECEIVE PAYMENTS

Generate a professional looking invoice within minutes from the time you install the software. The invoicing process is simple and intuitive—invoice your customers for services or

products sold. Easily copy from another invoice or convert quotes and sales orders to invoices. To simplify repeating orders, create recurring invoices.

Accept payment from your customer for one or more invoices, allowing the system to calculate cash discounts for early payments. Payments received can be deposited or directly integrated with the banking side.

Getting paid using credit cards is a convenience that we cannot ignore. To make this easier for you, BizSight integrates PayPal's payment link directly into the invoices you email allowing customers to click the link and pay online. Reduce payment cycles with immediate payment capabilities

## CUSTOMIZE YOUR INVOICES AND OTHER TEMPLATES

Our professional looking invoice forms allow you to include your company logo as well as select from five customizable templates. We have provided you with a redistributable report designer to customize these templates further.

The report designer is a graphical user-friendly tool that allows you to change the layout, fonts, as well as add/delete fields.

## CREATING PROFESSIONAL LOOKING INVOICES IS A SNAP. CHOOSE FROM THE MANY TEMPLATES OR MODIFY AN EXISTING ONE TO SUIT YOUR NEEDS

## MANAGE AND REPORT SALES TAX, VAT, GST

If you sell to multiple locales and need to track and report sales tax by county or region, BizSight 365 allows you to maintain tax codes and tax groups. This then allows you to maintain the necessary detail for the required reporting to the relevant tax authorities.

UK and other countries that deal with VAT and GST can leverage BizSight 365's in-built international capabilities.

## RECORD BILLS AND PAY VENDORS

Record your vendor bills and track your expenses. BizSight 365 allows you to track these at the item level or purely at

the account level. Even if these are purchases online with a credit card, you can still record them into BizSight 365. If these transactions are a part of your Debit card statements,, they can be imported in. through our Bank Import capability!

Vendor payments for one or more bills, take advantage of vendor credits, and early payment discounts. Industry standard check layouts are used for printing checks. These layouts can be further customized using our report designer to fit your needs!

Vendor invoices and receipts can be attached directly to your vendor side transactions using the notes capabilities.

## CREATE PURCHASE ORDERS AND INVENTORY RECEIPTS

If your business generates purchase orders to buy widgets or services, BizSight 365 can create these for you! Once created, these can be printed or emailed to your vendor confirming your order. Several customizable purchase order layouts are available to suit you needs!

Purchase Orders can also be automatically created from your Sales Orders, both for drop-shipment as well as your own internal ordering.

Receiving products updates your inventories affecting availability to both your sales and manufacturing side.

## INVENTORY

BizSight 365 does not stop with just financial accounting, if maintaining and managing your inventory is important to your business, BizSight 365 provides you with the tools for inventory control, accuracy, and costing.

If you are dealing with widgets, your daily transactions like invoicing, and purchase receipts interact with inventory in real time. Maintain ABC codes, count your inventory, adjust them if you need to and keep it accurate!

## IMPROVE CUSTOMER SERVICE WITH NOTES

Track notes at Customer, Vendor, Item level and expand this to individual transactions. Add images, videos, attachments like vendor invoices and receipts to save the necessary data, either from an email or a web snippet.

Specific note types can also be designated to be your case tracking system assisting in sales follow up, service tracking and customer service.

Notes: I made the ultimate climb...without a rope

Date: 8/21/2019

Customer Name: [Blank]

write Valley from the granite slab...without a rope. Each year the walls and boulders "talk" to me. It's my favorite place in the entire state.

3 years of National Geographic magazine.

being in 2018 in Yosemite National Park.

a beautiful view of El Capitan, where Alex Honnold's nothing more than the tip of his finger and two thin ice axes secured that incredible feat.

one of the world's most iconic cliffs. That means do the inches his way up more than half a mile of sheer rock.

see the freckles on the cold, rosy cheeks of granite as they go down the face. The stone is black, covered in wet ice, which features shallow cracks, patches, and ridges, all up with the possibility of slipping. This climb...a very solid top. The climb...must be mastered with a lifetime of practice. "It's the waiting up."

Start Date: [Blank]

End Date: [Blank]

## ACCOUNTING

Everything makes it to the accounting side! You do not need to be an accountant or know accounting to do this. It all happens in the background!

BizSight 365 provides you with the most common Profit and Loss and Balance Sheet financial statements that easily give a picture of your income and expense. Other accounting reports, including reports that will help you file your sales tax, monitor the financial health of your business, as well as assist your accountant and financial advisor are standard.

Your accountant can provide you with month-end or year-end adjustments in Excel, that can easily be imported into BizSight. 365.

## BANK RECONCILIATION

Reconciling your system's cash balance and outstanding checks to what is reflected in your bank is critical. BizSight 365 provides you with a simple interface to accomplish this.

If you are downloading your monthly bank statement from your bank (.csv or Excel) to update your system records, the Bank Import capability within Bank Reconciliation allows you to read the file downloaded from your bank and import this into the system.

The import process allows you to define and learn from your transaction keywords to match it to the accounts that you typically use...making tracking your expenses a snap!

## REPORTING AND DASHBOARDS

There are many, many reports to give you better insight into your business. Each report allows you to drill down to the supporting detail or origin of the data easily. Export these reports to Excel, print, or email them.

Customer Balances

Customer	No	Days	Balance
Cable Sports	151	827	\$118.07
Nearby Sporting Goods	153	819	\$4.00
Pro Sporting Goods	154	800	\$3,079.63
Pro Sporting Goods	155	800	\$4,410.54
Cash Customer	156	838	\$956.00

Vendor Balances

Vendor	No	Days	Balance
Central Discount Store	832	115	\$100.00
Hobby Bliss	12	1294	\$247.50
The Phone Company	136	1150	\$50.00
City Power and Light	154	1150	\$32.91
Oil and Fluids Warehouse	261	1150	\$2.00

Filters allow you to go after specific date ranges, customers, vendors, items, etc. Expose additional hidden columns available on a report or hide ones that you may not use. These modified reports can then be saved as additional reports and accessed later without further modification.

Multiple graphs in the various dashboards are not just pretty, but provide meaningful snapshots to manage your business. Wouldn't it be nice to always know who your top 10 customers are, the top 10 items you sell, top 10 expenses in your business, or the top 10 items you purchase? Knowing where to focus our attention on in a small business is half

the battle...this is one of the ways BizSight 365 helps you get better insight into your business!

20+ YEARS OF EXPERIENCE IN THE  
FINANCIAL ACCOUNTING, INVENTO-  
RY, AND MANUFACTURING INDUSTRY.

### **BIZSIGHT EDITIONS**

**BizSight 365 Cloud** - Leverage the power of the cloud - Microsoft Cloud! ### **BIZSIGHT 365 TECHNOLOGY**

BizSight 365 is built on many common Microsoft and Google technologies using the .net framework Angular JS, and Telerik rapid development tools. BizSight 365 is built on a Microsoft SQL Server foundation and supports the most common browsers like Chrome, Microsoft Edge, FireFox and Safari.

The Cloud edition builds on Microsoft Azure cloud platform, SQL Azure , and App Service, to provide Software as a Service (SAAS) via a monthly subscription model. With our online cloud edition, you are running on Microsoft's Cloud.

### **BIZSIGHT 365 SDK FOR DEVELOPERS**

We realize that even the most complete software may not address all the nuances and specifics of certain industries and business process. Independent Software Vendors (ISVs) and other consultants close to these business, may have the added experience and know how to solve specific business problems through integrations and add-ons.

BizSight 365 SDK provides RESTful APIs, for what we believe to be the most commonly used or sort after integration points. Choose your own language or platform of development as well as if you want the data to be served in json or XML formats, to build integrations or add-ons to BizSight. BizSight SDK is included with our licensed product with no additional redistribution fees.

***BUILT ON MICROSOFT AND GOOGLE  
TECHNOLOGIES. FOR THE MODERN  
WEB AND MOBILE DEVICES***

### **COMPANY**
