

Time and Expenses

FourVision's Web App for Microsoft Dynamics 365 for Talent

Easy registering of Time and Expenses

Time is the most valuable resource in any aspect of business. That's why it's important to pay close attention to how you organize your Timesheets. Timesheets are used for detailed time organizations. They provide data that can be used for measuring project performance, billability and invoicing. Timesheet data can also help you get much better insight into your working processes.

The FourVision Timesheet Web App offers the ability to register Time and Expenses. It facilitates the approval process by the manager (Position Management) and the Expense pay out by Finance. Via the Power BI cockpit you have real time insight in the status of your timesheets. You will not have a missing timesheet anymore.

Timesheet registration

Efficient and hassle-free time registration so your business runs like clockwork. Employees can easily register on a daily base their time based on customers, projects, work orders, project tasks and location. Once completed, the employee submits the timesheet for management approval. Missing timesheets are reported to the manager. Employees can access the Timesheet via both static and mobile devices.

Add new hours detail

Time and Expenses Web Apps

Expenses management

In Expenses, the Employee can easily register via every device, like a mobile device, the expenses. Expenses can be booked on expense type, customer and project.

Users define their own expense types and currencies. Per expense type you can configure if an attachment is mandatory.

Once completed the employee can submit the expense entry and the designated person (like Finance) can check, approve and pay out the expenses.

Attachments such as bills are kept stored and can be used for tax evidence.

Key takeaways

- Fill in your time on customers, projects, project tasks, work orders, internal, external
- Fully integrated with other Microsoft Dynamics 365 Solutions like Field Service and Projects
- Approval process by Manager via Position Management
- Easy upload of your expenses, notes, pictures or other evidence
- Quick registration per expense type
- Direct insight in payment of your expenses
- Manage your expenses via your mobile device. Fully compatible with Android and iOS
- Fully integrated with Power BI for real time analytics
