

PERFORMANCE MANAGEMENT

FOURVISION'S WEB APP FOR MICROSOFT DYNAMICS 365 FOR TALENT

STREAMLINE EMPLOYEE REVIEWS

In standard Microsoft Dynamics 365 for Talent there is a limited ability to perform reviews. The Performance Management Web App of FourVision is offering a complete performance experience. Managers have real-time insight in the performance of their teams. Employees can easily add and view their performance actions, setup goals and build their own Continue Development Plan (CPD). HR can configure all types of performance reviews or 360 degree reviews to monitor any feedback. The Web App is designed for any mobile device with a browser and Computer.

WORKFLOW

The FourVision Performance Management Web App has a great feature wherein it allows the administrators of the application to easily configure the workflow requirements. All one has to do is setup the successor steps, statuses and the workflow. It is as easy as that.

FLEXIBLE REVIEW TEMPLATES

The FourVision Performance Management Web App allows administrators to easily configure review templates. The Web App has easy-to-use template configurators to enable or disable features based on internal review policies and via a series of unique fields and check boxes.

EASILY CREATE CUSTOM FORMS

Design and create custom forms in the Performance Management Web App with ease to support your review processes. These forms may be linked to review templates and stored and accessed for future reference and support developmental plans. Configure forms with little or no technical expertise via this powerful set of tools from FourVision.

INSIGHTFUL PERFORMANCE DASHBOARD VIEWS

An easily configurable dashboard overview provide managers and employees with easy access to performance metrics and development plans. Drill down to performance reviews and metrics to support your review process and empower managers and employees with actionable insights before, during and after reviews. Employees can have direct access to their current and historical reviews.
