

***Commercient SYNC for Sage 1000 UK and Microsoft Dynamics 365***

Commercient SYNC, the #1 data integration platform integrates your Sage 1000 UK system with Microsoft Dynamics 365. The Commercient SYNC Agent is rapidly deployable and gives you access to your Sage 1000 UK customer and order information in Microsoft Dynamics 365. We are compatible with the following Sage editions: versions of, Sage 50 (Cloud Pro & Premium, UK, US, EU, Canada), Sage 100 (Contractor & France), Sage 200 (Pro), Sage 300, Sage300 Construction Real Estate, Sage 500 (Line), Sage 1000, Sage Intacct, Sage Enterprise Management (Sage X3) and Sage Business. Commercient is certified for use on the Microsoft Dynamics 365 mobile platform.

***About the SYNC:***

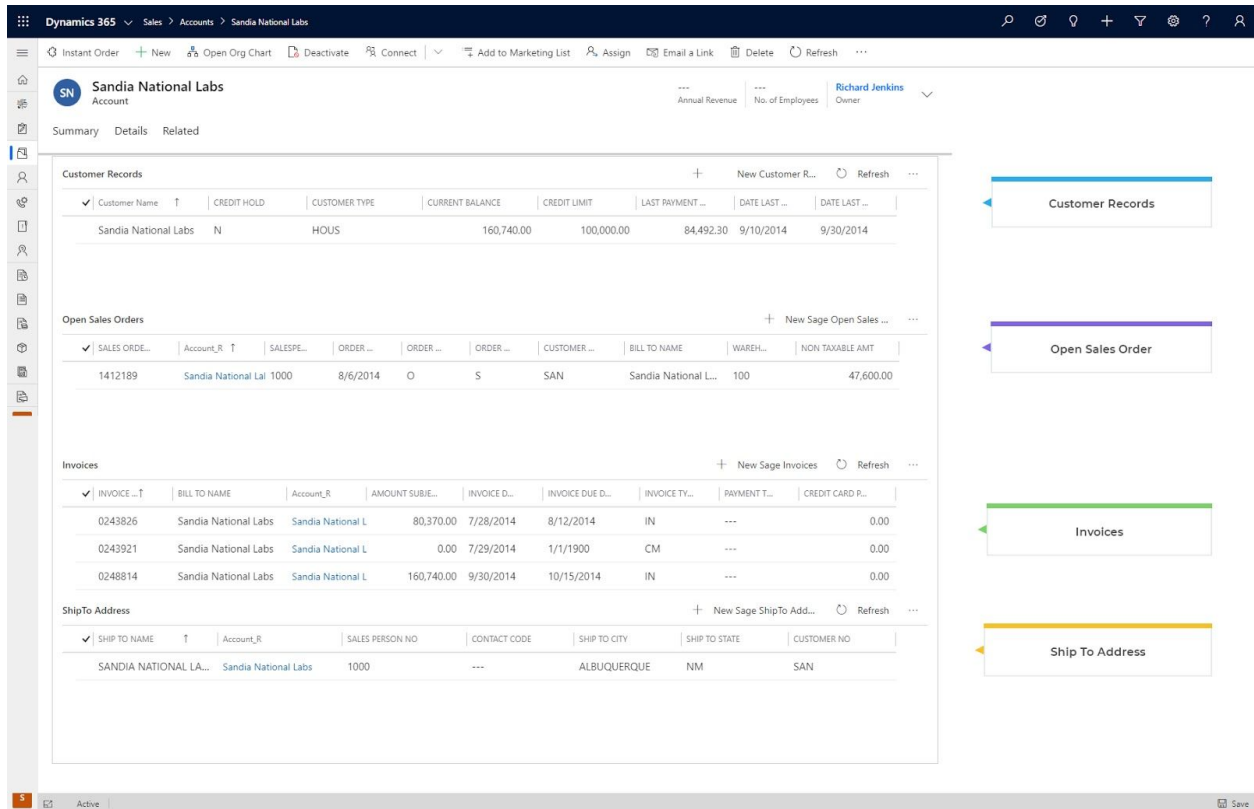

- Unlike traditional data integration tools such as ETL, there is no coding, mapping, or server. We handle everything, so you can focus on growing your business.
- Sage 1000 UK data is automatically integrated into your Microsoft Dynamics 365 so you don't have to program anything.
- Changes are reflected in Microsoft Dynamics 365 as soon as the records in Sage 1000 UK are altered.
- Sage 1000 UK and Microsoft Dynamics 365 are both beneficial since Sage 1000 UK can reduce overall expenses while Microsoft Dynamics 365 can bring in more revenue through better sales figures and increase profitability.
- Commercient SYNC for Sage 1000 UK is built by ERP & CRM integration experts.
- Commercient's software provides Sage 1000 UK users with a "Cloud-based" experience. Since it is a cloud-based experience, you can be ensured that Commercient will have your data secured.

- Any field synced from Sage 1000 UK can be displayed on the Microsoft Dynamics 365 screen. All of the data Commercient SYNCs to Microsoft Dynamics 365 becomes part of Microsoft Dynamics 365 native database. As such, you can perform any Microsoft Dynamics 365 function on the data—from graphing to dashboards to using third-party apps that can make use of the data.
- SYNC has provided a user-friendly search engine in Microsoft Dynamics 365 to lookup data. For instance, search for a serial number and find the Invoice Records and Sales Order records that pertain to it.
- Implementing Commercient SYNC creates a simple data integration pathway between Sage 1000 UK and Microsoft Dynamics 365. Our SYNC solution also enables you to prevent the duplicate data, handle custom objects in Microsoft Dynamics 365, and take advantage of the premier support.
- The SYNC app only uploads or updates data as it changes. Commercient has an eye for detail and has implemented a series of measures in order to track changes as well as, submitting records to Microsoft Dynamics 365 API (Application Programming Interface) in a single call.
- Commercient can significantly reduce the likelihood of exceeding the Microsoft Dynamics 365 API Sage 1000 UK limits, as Sage 1000 UK has a limit of 100 requests per minute per company. In the event that a daily limit is reached (which can occur during the initial SYNC of a large Sage 1000 UK system) Commercient will continue to SYNC where it left off on the following day.

### ***What does SYNC offer?***

The first item to be SYNC is your **AR Customer Record** and once this is completed, all the fields can be shown. As you can see below. Customers in Sage 1000 UK are integrated into Microsoft Dynamics 365. Their Ship To and Bill To address in Sage 1000 UK is merged into Microsoft Dynamics 365, which can be displayed according to their needs. By clicking on the Sage 1000 UK Customer Record, you

can see all the fields that are synchronized.

**Customer Records**

Customer Name	CREDIT HOLD	CUSTOMER TYPE	CURRENT BALANCE	CREDIT LIMIT	LAST PAYMENT...	DATE LAST...	DATE LAST...
Sandia National Labs	N	HOUS	160,740.00	100,000.00	84,492.30	9/10/2014	9/30/2014

**Open Sales Orders**

SALES ORDE...	Account_R	SALESPE...	ORDER ...	ORDER ...	ORDER ...	CUSTOMER...	BILL TO NAME	WAREHL...	NON TAXABLE AMT
1412189	Sandia National Lal	1000	8/6/2014	O	S	SAN	Sandia National L...	100	47,600.00

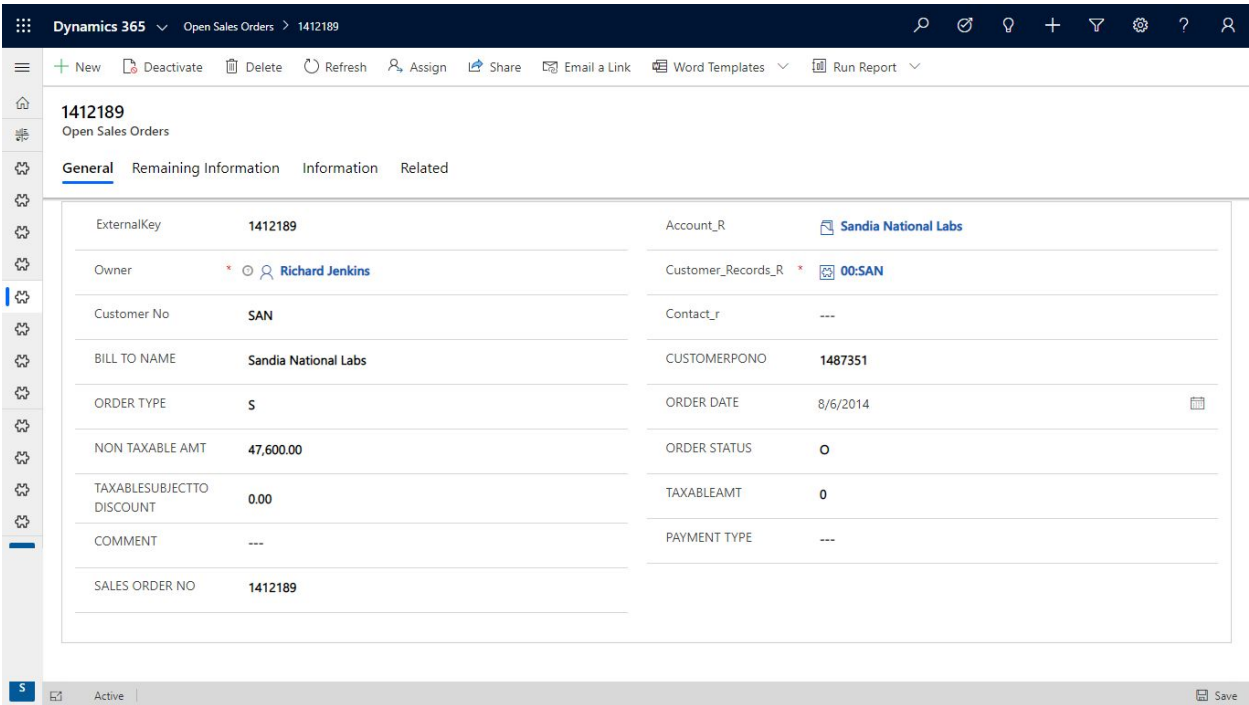

**Invoices**

INVOICE ...	BILL TO NAME	Account_R	AMOUNT SUBJE...	INVOICE D...	INVOICE DUE D...	INVOICE TY...	PAYMENT T...	CREDIT CARD P...
0243826	Sandia National Labs	Sandia National L	80,370.00	7/28/2014	8/12/2014	IN	---	0.00
0243921	Sandia National Labs	Sandia National L	0.00	7/29/2014	1/1/1900	CM	---	0.00
0248814	Sandia National Labs	Sandia National L	160,740.00	9/30/2014	10/15/2014	IN	---	0.00

**Ship To Address**

SHIP TO NAME	Account_R	SALES PERSON NO	CONTACT CODE	SHIP TO CITY	SHIP TO STATE	CUSTOMER NO
SANDIA NATIONAL LA...	Sandia National Labs	1000	---	ALBUQUERQUE	NM	SAN

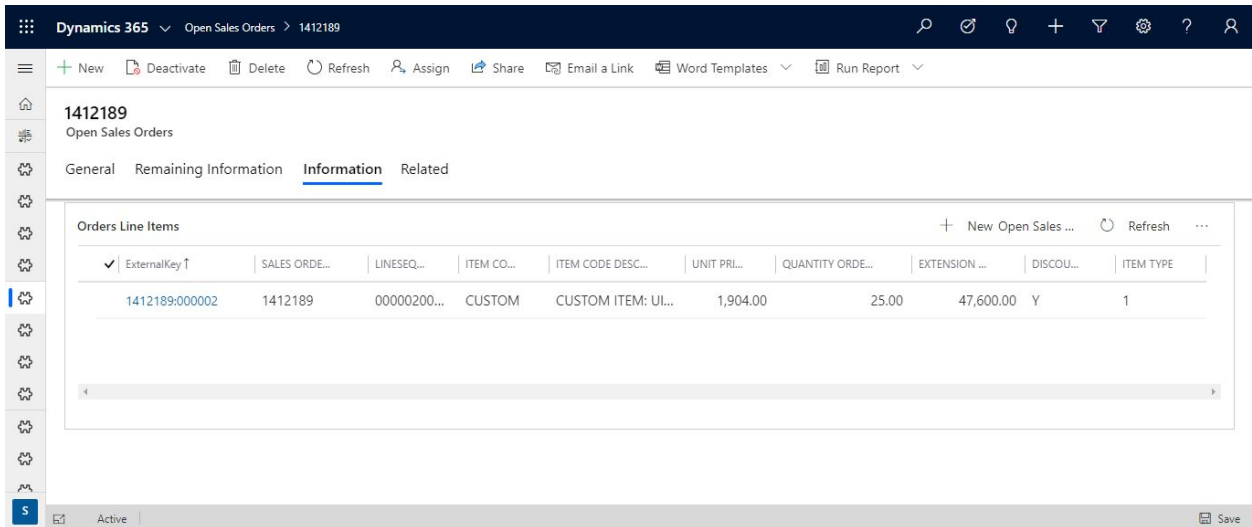

Once the Customer Record is in Microsoft Dynamics 365, Commercient then SYNCs the **Sales Orders and their Detail Lines** which relates them to the corresponding Microsoft Dynamics 365 Account record. The Sales Order data and Invoices Sales Order data is merged as one as a custom object into Microsoft Dynamics 365 since each customer's needs are unique. This allows customers to see their invoices that have their orders and details as well as, viewing the different statuses of their sales orders as they change in Sage 1000 UK. Removing canceled Sage 1000 UK Sales Order data from Microsoft Dynamics 365 has performed automatically.

Commercient has designed the relationships with the data objects in Microsoft

Dynamics 365 that can give you the freedom to decide which objects you would like to display on the screen. You are always able to click to other parents- or child-related objects. For example, an Admin user can remove the Sales Orders from the Account screen but leave their Detail Lines. This allows our customers to see what was sold and shipped from the main account screen. By clicking on the Sales Order link on the detail line, they can view the full Sales Order.

### The AR Invoice (see below)

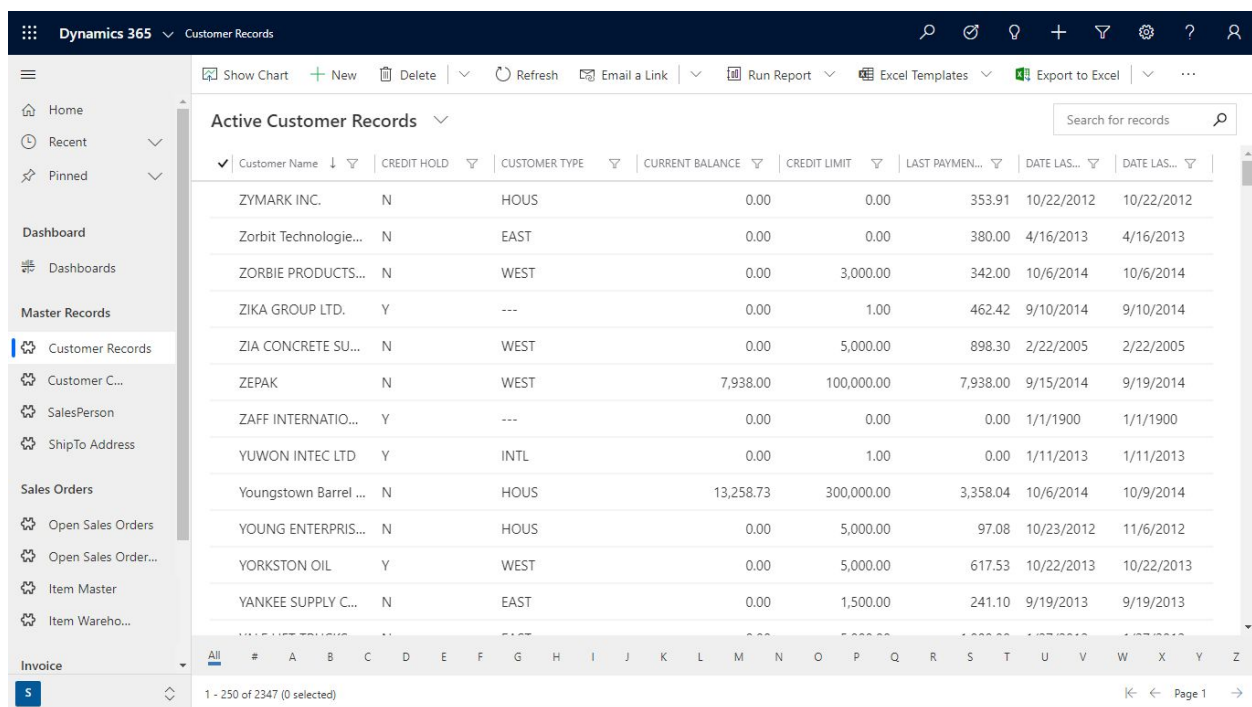

- The AR Invoice is a record that is synced and related to the **Invoiced Sales Order Data**, and **Invoice Payments**.
- The AR Invoice data is useful for identifying unpaid invoices and locating the data, in which the customer needs to pay for the services used.
- The other records which are used in SYNC include the **AR Customer Ship to**

## Tax Exemptions, Item Master, and Item Warehouse.

- The **Item Master** is used to create **Microsoft Dynamics 365 Products** by Commercient and links the entire **Item** and **Warehouse** records to the **Product**.
- This gives you the ability to have accurate product data and Inventory availability. In addition, you can **SYNC any Database, table, or view**.

The screenshot shows the 'Active Customer Records' table in Microsoft Dynamics 365. The table has columns for Customer Name, CREDIT HOLD, CUSTOMER TYPE, CURRENT BALANCE, CREDIT LIMIT, LAST PAYMEN..., DATE LAS..., and DATE LAS... The data includes various customer records such as ZYMARK INC., Zorbit Technologie..., ZORBIE PRODUCTS..., ZIKA GROUP LTD., ZIA CONCRETE SU..., ZEPAK, ZAFF INTERNATIO..., YUWON INTEC LTD, Youngstown Barrel ..., YOUNG ENTERPRIS..., YORKSTON OIL, and YANKEE SUPPLY C... The table is displayed in a grid view with a search bar and various action buttons at the top.

Customer Name	CREDIT HOLD	CUSTOMER TYPE	CURRENT BALANCE	CREDIT LIMIT	LAST PAYMEN...	DATE LAS...	DATE LAS...

## What if I have an existing Microsoft Dynamics 365 database?

Clients with existing records in both Sage 1000 UK and Microsoft Dynamics 365 must consult with the Commercient Professional Services team to perform a clean-up and match-up of records before the Commercient SYNC is enabled.

***Can I limit or control the data that I SYNC?***

Yes. Commercient has created an open methodology of allowing you to control the filtering of data in the SQL WHERE statement while maintaining the integrity of relationship mapping and efficient syncing methodologies. Within the WHERE you can perform sub-queries, filters, and cross-table and cross-database sub-queries to affect the rules. In addition, you can also map custom tables or views. (Charges may apply.)

***What else does Commercient do with Microsoft Dynamics 365?***

Data synchronization is the first step towards a total solution. Ask about these additional modules for Sage 1000 UK;

- Quote Processing;
- Web-based Product Configurator;
- Opportunity and Quote -> Sales Order Conversion;
- Products and Price Book SYNC;
- Product Record Types;
- Cases with Serial Numbers Invoiced and Service Orders;
- Opportunity Commissions Calculations based on Sage 1000 UK Invoices;
- Automatic Sage 1000 UK Sales Order Email Engine;
- Automatic Invoice Email Engine;
- Dealer/Wholesaler Self-Service Portal;
- Custom Data synchronization; and
- SF Account Conversion to Sage 1000 UK AR Customer.

***System Requirements:***

Microsoft Dynamics 365 Group, Professional, Enterprise editions or higher.

Microsoft Dynamics 365 API is included at no charge.

## SYNC for Sage 1000 UK and Microsoft Dynamics 365

### ***Company Information:***

Commerciant is a cloud-based company that connects Microsoft Dynamics 365 directly to your Sage 1000 UK system. Our open SYNC Agent works with ERP's such as Epicor, SYSPRO, Traverse, and other ERP accounting systems.

Commerciant improves the efficiency of getting CRM, B2B, and B2C eCommerce orders directly into your accounting system in real-time, with all of the associated business rules.
