

## Fast. Simple. Customizable. App for full-text search in Microsoft Dynamics 365 Business Central

Are you looking for a particular item, but do not remember the right item description, the complete item number or the EAN? With BE-Search, BE-terna offers you a customizable full-text search: You can search items, customers, suppliers and contacts quickly on each page for specific combinations of datasets or just for Fragments.

## Even the largest amounts of data are no problem and can easily be searched.

The app ensures optimal performance and leads to more accurate search results. BE-Search is suitable for all company sizes and all industries.

## Features and Benefits:

- Full-text search for fragments
- Quick search for Flow Fields
- Search in any order and in all indexed columns
- Direct integration into the corresponding pages
