

Commercient SYNC for Chempax and Microsoft Dynamics 365

Commercient SYNC, the #1 data integration platform integrates your Chempax system with Microsoft Dynamics 365. The Commercient SYNC Agent is rapidly deployable and gives you access to your Chempax customer and order information in Microsoft Dynamics 365. We are compatible with the following Chempax, Chempax C/S, and Chempax VB. Commercient is certified for use on the Microsoft Dynamics 365 mobile platform.

About the SYNC:

- Unlike traditional data integration tools such as ETL, there is no coding, mapping, or server. We handle everything, so you can focus on growing your business.
- Chempax data is automatically integrated into your Microsoft Dynamics 365 so you don't have to program anything.
- Changes are reflected in Microsoft Dynamics 365 as soon as the records in Chempax are altered.
- Chempax and Microsoft Dynamics 365 are both beneficial since Chempax can reduce overall expenses while Microsoft Dynamics 365 can bring in more revenue through better sales figures and increase profitability.
- Commercient SYNC for Chempax is built by ERP & CRM integration experts.
- Commercient's software provides Chempax users with a "Cloud-based" experience. Since it is a cloud-based experience, you can be ensured that Commercient will have your data secured.
- Any field synced from Chempax can be displayed on the Microsoft Dynamics 365 screen. All of the data Commercient SYNCs to Microsoft Dynamics 365 becomes part of Microsoft Dynamics 365 native database. As such, you can perform any Microsoft Dynamics 365 function on the data—from graphing to dashboards to using third-party apps that can make

use of the data.

- SYNC has provided a user-friendly search engine in Microsoft Dynamics 365 to lookup data. For instance, search for a serial number and find the Invoice Records and Sales Order records that pertain to it.
- Implementing Commercient SYNC creates a simple data integration pathway between Chempax and Microsoft Dynamics 365. Our SYNC solution also enables you to prevent the duplicate data, handle custom objects in Microsoft Dynamics 365, and take advantage of the premier support.
- The SYNC app only uploads or updates data as it changes. Commercient has an eye for detail and has implemented a series of measures in order to track changes as well as, submitting records to Microsoft Dynamics 365 API (Application Programming Interface) in a single call.
- Commercient can significantly reduce the likelihood of exceeding the Microsoft Dynamics 365 API Chempax limits, as Chempax has a limit of 100 requests per minute per company. In the event that a daily limit is reached (which can occur during the initial SYNC of a large Chempax system) Commercient will continue to SYNC where it left off on the following day.

What does SYNC offer?

The first item to be SYNC is your **AR Customer Record** and once this is completed, all the fields can be shown. As you can see below. Customers in Chempax are integrated into Microsoft Dynamics 365. Their Ship To and Bill To address in Chempax is merged into Microsoft Dynamics 365, which can be displayed according to their needs. By clicking on the Chempax Customer Record, you can see all the fields that are synchronized.

Customer Records

Customer Name	CREDIT HOLD	CUSTOMER TYPE	CURRENT BALANCE	CREDIT LIMIT	LAST PAYMENT	DATE LAST	DATE LAST
Sandia National Labs	N	HOUS	160,740.00	100,000.00	84,492.30	9/10/2014	9/30/2014

Open Sales Orders

SALES ORDE	Account_R	SALESPE	ORDER	ORDER	ORDER	CUSTOMER	BILL TO NAME	WAREH	NON TAXABLE AMT
1412189	Sandia National Labs	1000	8/6/2014	O	S	SAN	Sandia National L	100	47,600.00

Invoices

INVOICE	BILL TO NAME	Account_R	AMOUNT SUBJE	INVOICE D	INVOICE DUE D	INVOICE TY	PAYMENT T	CREDIT CARD P
0243826	Sandia National Labs	Sandia National L	80,370.00	7/28/2014	8/12/2014	IN	---	0.00
0243921	Sandia National Labs	Sandia National L	0.00	7/29/2014	1/1/1900	CM	---	0.00
0248814	Sandia National Labs	Sandia National L	160,740.00	9/30/2014	10/15/2014	IN	---	0.00

Ship To Address

SHIP TO NAME	Account_R	SALES PERSON NO	CONTACT CODE	SHIP TO CITY	SHIP TO STATE	CUSTOMER NO
SANDIA NATIONAL LA...	Sandia National Labs	1000	---	ALBUQUERQUE	NM	SAN

Once the Customer Record is in Microsoft Dynamics 365, Commercient then SYNCs the **Sales Orders and their Detail Lines** which relates them to the corresponding Microsoft Dynamics 365 Account record. The Sales Order data and Invoices Sales Order data is merged as one as a custom object into Microsoft Dynamics 365 since each customer's needs are unique. This allows customers to see their invoices that have their orders and details as well as, viewing the different statuses of their sales orders as they change in Chempax. Removing canceled Chempax Sales Order data from Microsoft Dynamics 365 has performed automatically.

Commercient has designed the relationships with the data objects in Microsoft Dynamics 365 that can give you the freedom to decide which objects you would like

Copyright Commercient LLC

Phone: (678) 383-4518 | sales@commercient.com | http://www.commercient.com

to display on the screen. You are always able to click to other parents- or child-related objects. For example, an Admin user can remove the Sales Orders from the Account screen but leave their Detail Lines. This allows our customers to see what was sold and shipped from the main account screen. By clicking on the Sales Order link on the detail line, they can view the full Sales Order.

The screenshot shows the 'Active Invoices' list in Dynamics 365. The table includes columns for invoice number, bill to name, account, amount, subject, invoice date, invoice due date, invoice type, payment type, and credit card payment. The data shows various invoices from different companies, all dated 1/2/2014, with due dates of 2/1/2014.

The AR Invoice (see below)

- The AR Invoice is a record that is synced and related to the **Invoiced Sales Order Data**, and **Invoice Payments**.
- The AR Invoice data is useful for identifying unpaid invoices and locating the data, in which the customer needs to pay for the services used.
- The other records which are used in SYNC include the **AR Customer Ship to**

Tax Exemptions, Item Master, and Item Warehouse.

- The **Item Master** is used to create **Microsoft Dynamics 365 Products** by Commercient and links the entire **Item** and **Warehouse** records to the **Product**.
- This gives you the ability to have accurate product data and Inventory availability. In addition, you can **SYNC any Database, table, or view**.

The screenshot shows the 'Active Customer Records' table in Microsoft Dynamics 365. The table has columns for Customer Name, CREDIT HOLD, CUSTOMER TYPE, CURRENT BALANCE, CREDIT LIMIT, LAST PAYMENT, DATE LAST, and DATE LAST. The data is as follows:

What if I have an existing Microsoft Dynamics 365 database?

Clients with existing records in both Chempax and Microsoft Dynamics 365 must consult with the Commercient Professional Services team to perform a clean-up and match-up of records before the Commercient SYNC is enabled.

Can I limit or control the data that I SYNC?

Yes. Commercient has created an open methodology of allowing you to control the filtering of data in the SQL WHERE statement while maintaining the integrity of relationship mapping and efficient syncing methodologies. Within the WHERE you can perform sub-queries, filters, and cross-table and cross-database sub-queries to affect the rules. In addition, you can also map custom tables or views. (Charges may apply.)

What else does Commercient do with Microsoft Dynamics 365?

Data synchronization is the first step towards a total solution. Ask about these additional modules for Chempax;

- Quote Processing;
- Web-based Product Configurator;
- Opportunity and Quote -> Sales Order Conversion;
- Products and Price Book SYNC;
- Product Record Types;
- Cases with Serial Numbers Invoiced and Service Orders;
- Opportunity Commissions Calculations based on Chempax Invoices;
- Automatic Chempax Sales Order Email Engine;
- Automatic Invoice Email Engine;
- Dealer/Wholesaler Self-Service Portal;
- Custom Data synchronization; and
- SF Account Conversion to Chempax AR Customer.

System Requirements:

Microsoft Dynamics 365 Group, Professional, Enterprise editions or higher.
Microsoft Dynamics 365 API is included at no charge.

Company Information:

Commerciant is a cloud-based company that connects Microsoft Dynamics 365 directly to your Chempax system. Our open SYNC Agent works with ERP's such as Epicor, SYSPRO, Traverse, and other ERP accounting systems. Commerciant improves the efficiency of getting CRM, B2B, and B2C eCommerce orders directly into your accounting system in real-time, with all of the associated business rules.
