EMPOWERING HEALTH

With Microsoft’s powerful and intelligent cloud platforms and Mazik’s industry expertise, healthcare providers can better engage their patients, empower their care teams, and optimize clinical and operational effectiveness through MazikCare’s end-to-end healthcare solution. With a variety of front-end applications backed by the power of Dynamics 365, MazikCare improves patient engagement and loyalty while also ensuring data security through HL7 integrations and FHIR common data models that are fully HIPAA compliant. As healthcare moves toward patient-centered care, MazikCare offers support for the digital transformation necessary for effective consumerization of health and achievement of the quadruple aim.

Why Customers Use MazikCare:

• Engaged Patients
• Empowered Care Teams
• Optimized Clinical and Operational Effectiveness
• Transformed Care Continuum
• Advanced Analytics and Reporting
• Secured Data
• FHIR, HL7 standards
• Integrations with major EMR/EHR platforms

Patient Engagement

• Improved experience of care for patients
• Improved access of care for patients

Evidence-Driven Outcomes

• Improved health of populations
• Better analytics via machine learning

Reduced Costs

• Alignment with new payment incentives like MACRA
• Improved tracking and reporting abilities

“As the Canadian leader in Corporate and Preventive Healthcare, Medisys was looking for a solution that would offer us complete management capabilities. MazikCare provided a fully integrated solution, allowing us to fulfill our current needs while ensuring our capacity and agility to realize changes as Medisys grows and evolves.”

- Michel Bouchard, Sr. IT Director, Medisys Clinics
