

GO-GPAIS

PROMPTLY SUBMIT THE DATA ON THE PACKAGING AND PRODUCTS TO THE GPAIS

According to the requirements of the Ministry of Environment of the Republic of Lithuania, the active companies in Lithuania are obliged to submit the data on the packaging and products to the electronic system GPAIS. The GO-GPAIS solution was created to help companies carry out this duty timely and without any errors.

GO-GPAIS SOLUTION

The GO-GPAIS solution was developed to help companies manage and submit the packaging and products data to the electronic system GPAIS (or PPWIS – Unified Product, Packaging and Waste Record Keeping Information System) according to the legal requirements and settings. The solution helps to submit the data in the easy and convenient way.

The **GO-GPAIS** is well suited for Microsoft Dynamics 365 Finance & Operations, and earlier AX versions.

COMPARISON OF GO-GPAIS WITH STANDARD DYNAMICS 365 FFO FUNCTIONALITY

DESCRIPTION OF FUNCTIONALITY	GPAIS STANDARD D365 FFO	GO-GPAIS
Description of packaging materials	✓	✓
GPAIS items/products description according to the requirements of the Ministry of Environment	✗	✓
GPAIS items/products *.xml file generation	✗	✓
Collecting the information about the GPAIS operations on items/products supply to the market (purchase, sales, movement and projects journals)	✗	✓
Generation of the monthly journal on items/products' operations in *.xml format	✗	✓
Integration of the items/products monthly operations with GPAIS using the web service	✗	✓

A PART OF THE LITHUANIAN LOCALIZATION PACK

The solution is a part of the Lithuanian Localization Pack which consists of the Microsoft Dynamics 365 FFO extensions for mandatory data export to the State systems following the requirements of the legislation of the Republic of Lithuania. The extensions can be purchased either in bulk set or as a separate extension.
