

Beezy
Your intelligent workplace

Your Intelligent Workplace

In a fast-paced, constantly-evolving market, companies need engaged employees that can collaborate and communicate effectively.

Employees get asked to...

- **Share their knowledge**
- **Promote transparency**
- **Reuse best practices**
- **Stay aware of everything**
- **Work like a network**

But which tools do they get?

THE PROBLEM

Even with the latest Office 365 features, employees lack certain tools to get work done. They are stuck in collaboration silos. As a result, employees today are unhappy.

An overloaded inbox...

Conflicting tools...

An outdated intranet

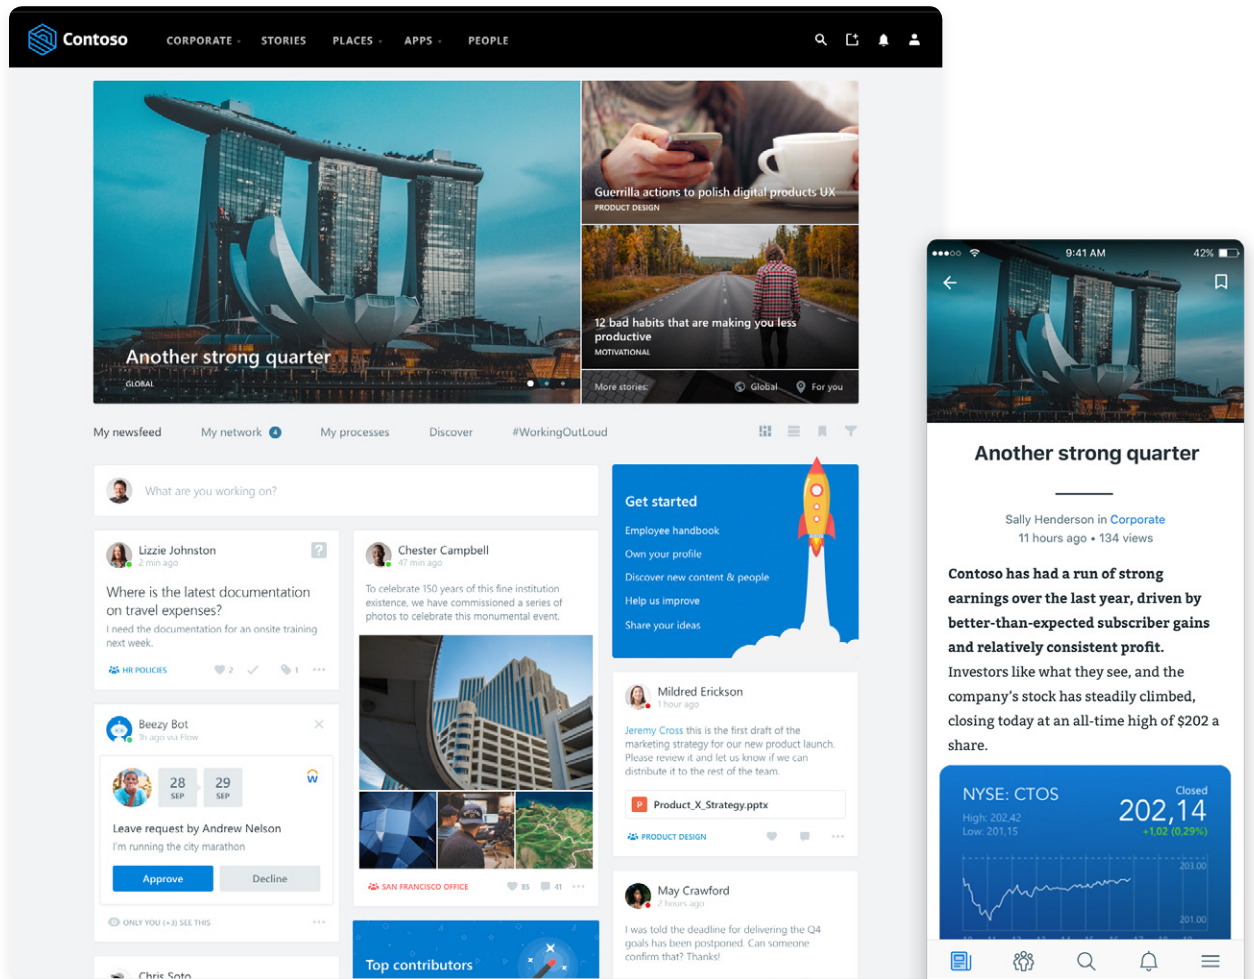

FRUSTRATION
LOST PRODUCTIVITY
DISENGAGEMENT

If only there was an
Intelligent Workplace
connecting all my tools

THE SOLUTION

Beezy's enterprise-class software extends the Office 365 feature set with all capabilities needed to build a digital workplace

Collaboration

- Communities
- Newsfeeds
- ShareBox
- Wikis
- Q&A

Communication

- Stories
- Announcements
- Department sites
- Pages
- Ask Me Anything

Knowledge

- Knowledge centers
- Idea management
- Skills & endorsements
- Experts finder

Processes

- Beezy Bot
- Action Cards™
- Intelligent Workflows™
- App store

Beezy is deployed as a SharePoint Add-in to your Office 365 environment. The Beezy experience removes collaboration silos, replacing them with a more connected, dynamic, and Intelligent Workplace.

HOW IT WORKS

Beezy is much more than just a pretty face. It is an enterprise-class application that extends Office 365 with advanced collaboration capabilities and connects the dots between Microsoft's business productivity tools, like: SharePoint, OneDrive, Yammer, Teams, Flow and PowerApps. Beezy delivers an award-winning and unifying user experience that employees love using on any device. Beezy also supports on-premises, cloud and hybrid deployments.

An award winning UX

Consumer-like user experience that requires no training and will delight your employees.

Built on an engine

Beezy stitches the pieces of the puzzle together, ensures high performance and feature availability through its API.

Natively connected

Built inside SharePoint, connected to the entire Microsoft platform and beyond...

MORE BENEFITS

Highly Customizable

Easy to adapt the look & feel to match your existing branding and Intranet design. Extend its capabilities using SharePoint out-of-the-box to meet your specific business requirements.

Built on Microsoft

Be safe in the knowledge that you're compliant with Corporate IT Governance as Beezy is fully integrated with the Microsoft stack. Remove information silos and avoid fragmentation.

Award-winning User Experience

A great consumer-like user experience means you won't spend a dime in training your employees. They will figure it out and be delighted. Guaranteed!
