# REGULATE 365

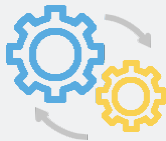

## CONNECTING ORGANIZATIONS TO PEOPLE

Regulate 365 is a rich case management and workflow automation system used by regulatory agents to streamline licensing and permitting processes that enable greater protection of the public. The solution includes a portal for licensees to manage and track their license applications, a data repository where the public can view and learn about current licensees, and back-end capabilities that provide regulatory agencies with powerful organizational insights.

### STREAMLINE

Self-service access for citizens to manage licenses and permits 24/7 without employee oversight

### AUTOMATE

Automate tedious, manual processes to gain service and workflow productivity

### TRACK

Simplify management and access to the status of applications in flight for employees

### CONNECT

Create constant dialogue between regulatory agencies and citizens

### ANALYZE

Gain insights into licenses and permits for industries and their respective members

### MONITOR

Built-in quality assurance tools that empower oversight, protection

# YOUR DYNAMICS 365 REGULATORY SECTOR EXPERTS

## Dynamics 365 Industry Solutions

### Award Winning Implementations. Deep Expertise

Adoxio is recognized globally as an innovative Dynamics 365 solution provider, with a rich background in Microsoft Dynamics CRM and CRM Portals. We have a deep understanding of Dynamics 365 Sales, Marketing, Customer Service, Field Service and Project Automation applications that extend beyond customization, delivering high value solutions based on your organizations needs.

### We Don't Just Do Portals – We Created Them.

Adoxio is known around the globe in the Microsoft Dynamics communities for developing what is now Microsoft's Dynamics 365 Portal extension. Our expertly-configured Portal solutions transform Dynamics 365 into a powerful web engagement platform and because we created them, Adoxio has unparalleled expertise in delivering these solutions.

## ABOUT ADOXIO BUSINESS SOLUTIONS

1. We specialize in providing industry focused web-enabled software applications that leverage the power of the Dynamics 365 platform, from installation, configuration to support. We implement award winning solutions that go beyond what others believe to be possible.
2. Adoxio is a Microsoft Gold partner in Cloud Customer Relationship Management, Customer Relationship Management, and Application Development. We also serve on the Microsoft Public Sector Partner Advisory Council and are a Microsoft CityNext Partner. Leveraging our extensive background in Microsoft Dynamics CRM, Adoxio continues the tradition of excellence in the provision of powerful and cost-effective business solutions based on Microsoft Dynamics 365.
