

# TeamValue

Gold  
Microsoft Partner

TEAMVALUE

The TeamValue logo features an orange icon above the company name. The icon is a stylized shape resembling a house or a signal tower, composed of three horizontal bars of varying lengths and a small dot at the bottom. The text "TEAMVALUE" is written in a bold, orange, sans-serif font.

# Get your ISO27001 certification and become GDPR compliant

## Challenges

**Are you working with sensitive data that falls under the GDPR ruling and do your customers require you to have the ISO/IEC 27001 certificate?**

- **ISO/IEC certified in 3 months**
- **All your sensitive data GDPR compliant**
- **Have a dashboard to prove it all**

## Ideal Solution

**One dashboard that monitors your business KPI's and offers standard reporting you can act upon.**

- **Giving insight on your ISO/IEC processes**
- **PowerBI dashboard from Azure DevOps based on KPI's from "the Phoenix project"**
- **Reporting on GDPR compliancy**

## Desired Outcomes

**How much time do you (have to) spend to stay ISO/IEC 27001 compliant? Can you show the authority with one click on the button what you have done in case of a GDPR violation?**

- **Fast response time**
- **Insight in Agile working/performance for management and teams**
- **Standard reporting across your BizDevOps organization**

## ISO/CIE and GDPR information at your fingertips!

### Any Platform

#### Any platform on Azure DevOps

- Support all platforms on Azure DevOps
- Based on Agile teams and terminology
- Runs on every device

### Overarching insight

#### All teams in your project

- Combines data from all the teams in your project
- Shows a dashboard rather than numbers
- Shortens your re-certification process

### Easy deployment

#### Runs on your Azure DevOps environment

- Standard component
- Easy to configure
- Provides information from the start

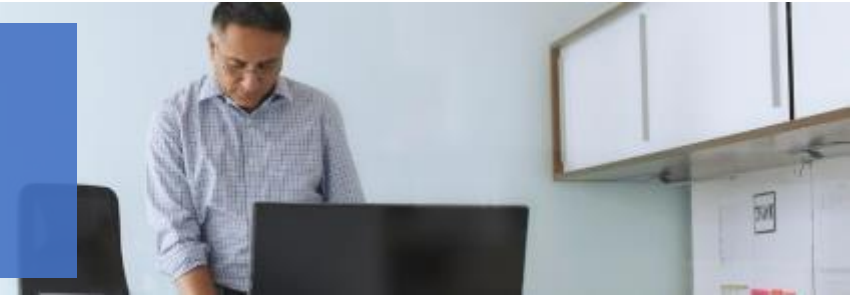

### Information at your fingertips

#### Realtime dashboard

- Dashboard with BizDevOps KPI's from the Phoenix projects
- Reporting on GDPR compliance with one click of the button
- Information on all your teams in one dashboard

**TeamValue** The people working at TeamValue all have the same attitude: Strong on content, no bullshit, and they know how to get things done – Elliot Wagschal – Head of Risk Management and Compliancy

# TeamValue's TeamNow + Microsoft Azure DevOps

## Get insight on your compliancy and certification from one dashboard

### Solution Alignment

#### TeamValue + Azure DevOps insights

- Know where your teams are in their process
- See the dependencies
- Have a quick and easy view on facts and combine them with intuition

#### TeamValue + Azure DevOps pain points

- Help your teams in reaching goals
- Prevent issues to become impediments
- Reporting takes a long time, not with TeamNow

#### TeamValue + Azure DevOps high performing teams

- Work hard and play harder
- Always have insight on your processes
- Standard reporting over teams and for compliancy
