

SEEDIA BUS SHELTERS

CATALOG

| Seedia Bus Shelter

SEEDiA bus stops are energy independent city devices providing informative and multimedia functionalities for citizens, as well as protecting from external urban factors.

Thanks to a special driver for energy management and cloud communication, the bus shelter is able to work in field whole year, regardless of sun reaching it. Integrated mobile chargers, smart LED lights, speakers, e-paper screens and smart hot-spots allow real-time communication with passengers and improvement of the efficiency of municipal services.

| Solar Benches

Seedia Future

Future is cutting edge in design and innovation. Its simplistic, minimal construction provides universal usage, which is great for modern plazas.

Seedia City

Unique construction and urban character manifest in its modular design, making it possible to set it up in 3 different configurations.

Seedia Urban

Urban is all about functionality. We have created a compelling product for parks and city plazas.

| Additional Products

Trash Cans

We have designed the City Trash Can after watching the real needs of cities - monitoring the level of garbage in baskets for municipal services, as well as for residents - to help them throw away waste to un-filled bins.

Testimonials

„The bench, which offers users the possibility of charging mobile devices was enthusiastically welcomed by citizens of our city and the city government.”

” **Rafat Zimny**
Chairman of the Board of PKWronki

„The implementation of the project went smoothly and in a timely manner. Installed benches met with great interest from citizens of Żary, who use their functionality on a daily basis. We can recommend this low-emission solution to other cities that would like to install it.”

” **Olaf Napiórkowski**
Deputy Mayor of Żary City

„Smart benches are a great fit to to our modern approach to the playground. We want to meet the needs of visiting parents and children, who gladly make use of the benches and the possibility to charge their smartphones.”

” **Jarosław Adamczuk**
Director of the Warsaw Support Center for Families
