

Rozie^{ai}

illuminar

Financial Services &
Insurance

Enhance the human touch with seamless knowledge discovery of documented content, via natural language search.

Empower contact center support and agents with guidance across the customer journey. Deliver personalized support and guidance based on existing web content, manuals, and best practices information.

Solution

Advisory

Real-time guidance on frequently asked account how-to's, lead gen processes, and educational marketing.

Experience

Connect to documented knowledge sources, like websites or manuals, and the artificial intelligence can support new FAQ topics in minutes.

Lead Gen

Seamless connectivity via natural language search – from customer support topics to cross-sell advisory, all connected in one experience.
