

# Concerned about your hiring challenges?

## CEM Applicant Portal

CEM Applicant Portal simplifies the hiring process, the way you **want** it to be. It has all the functionalities you would need. It is fully workflow automated from end to end. It is an independent software which can be connected with job portals, social media, e-Verify, DocuSign, HR or any ERP system. It can adopt your website's look and feel. Anyone in your organization from anywhere can request for staff. CEM Applicant Portal takes it from the staff request till the applicant is ready to be onboarded. You can reduce your workload by almost half, yet hiring better people faster.

## WHAT WE OFFER

### Integrated system

CEM Applicant Portal is a hiring solution. It simplifies your hiring process from manpower request till onboarding your new hire if needed. It connects your business users, business managers, recruiters, HR managers and the candidates seamlessly. It connects with your intranet job portal, external social media and job boards.

### All in One Azure Cloud

CEM Applicant Portal is hosted in Azure and is integrated with LinkedIn, Dynamics 365, MS Office, Teams, PowerBI etc. This means you can post your jobs ads on LinkedIn, create e-mail notifications, integrate to calendars, interview using Microsoft Teams, store video / audio / text / image files in SharePoint, export data for onboarding & connect to your core HR and ERP.

### Delight the candidates

CEM Applicant Portal gives a delightful experience to candidates. All candidate related processes from job application, interview, questionnaire, offer letter and acceptance through DocuSign are automated. In addition, candidates have their own self service portal. This professional experience would attract the top candidates to join your organization.

### Speed and Quality

CEM Applicant Portal is built with many intelligent functions like 'manpower requests, approvals, JD templates, Hot-match, workflow, candidates comparisons, e-Verify, alerts, reminders, salary negotiations, integration bi-directionally with your HR and ERP systems, etc. These features enhance your hiring speed and quality of the selection.
