

OFFER INTERACTIVE & MOBILE WEB SERVICES TO YOUR CUSTOMERS

With ITESOFT Capture as a Service, accelerate digital transformation by capturing key information the closest to your customers or citizens

In an information age, data drives and fuels business processes and decisions. Accurate and comprehensive data is a critical asset for any organization to gain competitive advantage and increase customer satisfaction and retention. This requires **real-time access to all incoming data**, which is quite a challenge when considerable information still resides in unstructured formats.

ITESOFT Capture as a Service is a **Cloud service** that provides **unmatched capability of digitizing, understanding and categorizing unstructured content as well as extracting and validating its relevant data**.

Backed up by ITESOFT's 30+ years of expertise in document processing (with corporates processing 1+ billion documents per year with ITESOFT technology with the highest level of service), Capture as a Service combines:

- Unique document processing technologies (OCRs, IAs and expert systems) delivering the best automation performances in the market, as testified by ITESOFT n°1 ranking in the international Pentadoc benchmark for information capture solutions.
- Pre-trained ready-to-use document libraries speeding up project implementation and enabling faster and more cost-efficient performances.
- Capability to combine mutualized libraries with an organization's own set of specific documents.
- Permanent monitoring of pre-trained libraries operated by ITESOFT in order to improve document recognition and data extraction capabilities.

Targeted markets: Banks & financial services / Insurance & healthcare companies / Local & central governments / B2C corporates.
