

Greek Localization for D365 Finance & Operations by DIS

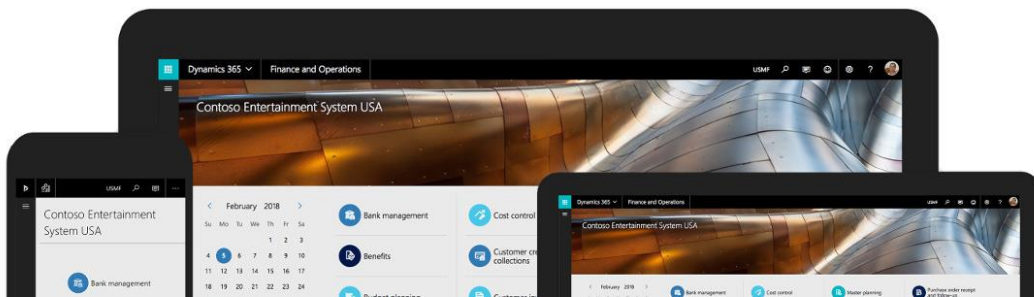

Legal Compliance and Adoption of Best Practices

Companies use ERP systems to automate business processes. However, often experience difficulties in areas such as gaining valuable insights from business applications, effective data migration from 3rd party software applications and lack of templates and blueprints that fulfil the needs of local wholesale, retail and service provisioning businesses.

The choice of the right ERP for a company is crucial. Dynamics 365 for Finance and Operations helps businesses adapt quickly to changing market demands and drive business growth. They can elevate their financial performance, run smarter with connected operations, automate and streamline their supply chain etc.

DIS develops the Greek Localization by utilizing the local market knowledge and business best practices that can boost the customer's competitive advantage.

Moreover, DIS offers other packaged business software solutions on D365 F&O, such as: flexible commercial policies (Advanced Rebates), visibility of actual cost for imports (Advanced Import Costing), Customs Clearance process, Post-Dated Cheques, Actual Costing.
