

# Subscription Billing Suite for Dynamics 365 for Finance and Operations

Binary Stream provides Dynamics 365 Finance and Operations solutions to extend your ERP with Subscription Billing Suite.

## Comprehensive Solution for Complex Billing Scenarios

Binary Stream Subscription Billing Suite (SBS) solutions streamlines complex billings for Microsoft Dynamics ERPs, including Dynamics 365 for Finance and Operations.

## Boost Your Quote-to-Cash Process

Normal invoicing cycles can take days and involve complicated spreadsheets and cumbersome manual processes. Regardless of billing frequency; or if billing is based on usage, tiers, or milestones; Subscription Billing covers the entire quote-to-cash process and works efficiently in the background to generate and distribute thousands of invoices to save time, eliminate costly errors, and faster turnover.

## Timely & Accurate Billing for Your Customers; Quicker Turnaround & Payment for You

Binary Stream's Subscription Billing Suite (SBS) can combine end-to-end billing and revenue recognition with the powerful capabilities of Microsoft Dynamics 365. SBS makes collections less painful by offering a self-service web portal for customer invoices and remitting online credit card payments.

**"What makes Binary Stream different from other software companies we have worked with is their ability to truly listen to customer input and enhance their subscription solution to meet those needs."**

Eivind Hesjadalen, eZ CFO

## Manage Subscription Billing with any Level of Complexity

Milestone billing tied to completion of billing stage

Subscription charges can be set to recur at any user-defined frequency, including pro-rated periods

Metered or usage-based fees such as time or amount consumed

Prices that change based on volume tiers

Real-time insights into business and financial performance

Effectively manage your revenue and expense deferrals

Facilitate ASC 606 / IFRS 15 compliance

# Subscription Billing Suite for Dynamics 365 for Finance and Operations

## Subscription Billing Suite (SBS) for Dynamics 365 for Finance & Operations

Binary Stream's SBS for Dynamics 365 for Finance and Operations consists of three components:

- Advanced Recurring Contract Billing (ARCB) to manage recurring and contract billing schedules and significantly reduce the amount of time required to manage contract billing periods with flexible billing schedules that streamline your billing process
- Advanced Revenue & Expense Deferrals (ARED) for deferral journal entries originating from the Accounts Receivable, Accounts Payable, and General Ledger modules in Dynamics 365 for Finance and Operations
- Multiple Element Revenue Allocation (MERA) to allocate revenue based on the standalone selling price to follow accounting standards for revenue recognition. This functionality allocates revenue to items in a multiple element arrangement (MEA), required by FASB and IFRS

## Over 1900 Companies Globally Trust Binary Stream - Award-Winning ISV

Business in Vancouver: BC Top 100 Fastest Growing Companies, PROFIT 200: List of Canada's Fastest-Growing Companies and CDN Channel Elite: Best Mid-Market Solution Finalist
