WHAT'S TEAMSCHAMP?

TeamsChamp is a **SaaS product** that end-users can safely view in their Teams and on the web. It aims to **boost the skills** required for the **digital transformation** of the company, through the **gamified use of Office 365** and other tools.

Office 365

THE SECRET FORMULA

TeamsChamp accesses **aggregated Office 365 applications usage metrics** from each user (SharePoint, Teams, Yammer, Skype, OneNote, Exchange).

Teams

Yammer

SharePoint

Sum in a weighted way:

- Number of **shared documents**
- **Open Teams** chats
- **Published posts** on Yammer
- **Viewed documents** in SharePoint
- Etc.

Without accessing messages or content.

- Each variable calculates the level of digital communication or productivity.
- Values allow you to see the evolution in the time of variables (7 to 30 days).
- TeamsChamp applies scientific algorithms mathematically.

POW!!

OBJECTIVES + BENEFITS

- Make your investment in Office 365 even **more profitable.**
- Improve the **communication** and **collaboration** of the organization.
- **Gamify** and bring **freshness** to the team.
- Provide O365 tips and **best practices**
- Make each user aware of their good use of O365 and encourage them to improve it.
- **Discover hidden talent** among regular members of the **leaderboards**

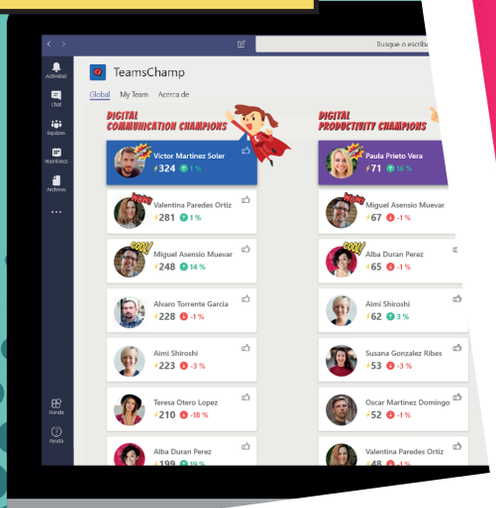
PIENSA EN COLORES

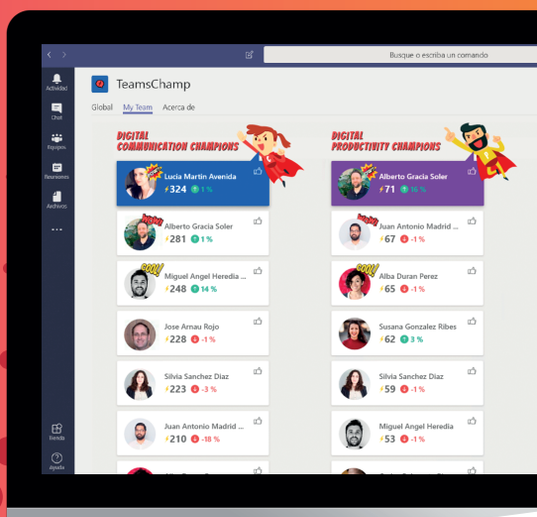
LEADERBOARD GLOBAL:

Top 10 colleagues who **stand out the most**, today, in every **digital competence** within my **company**.



MY TEAM LEADERBOARD:

Top 10 colleagues who **stand out the most**, today, in every digital competence within **my team**.

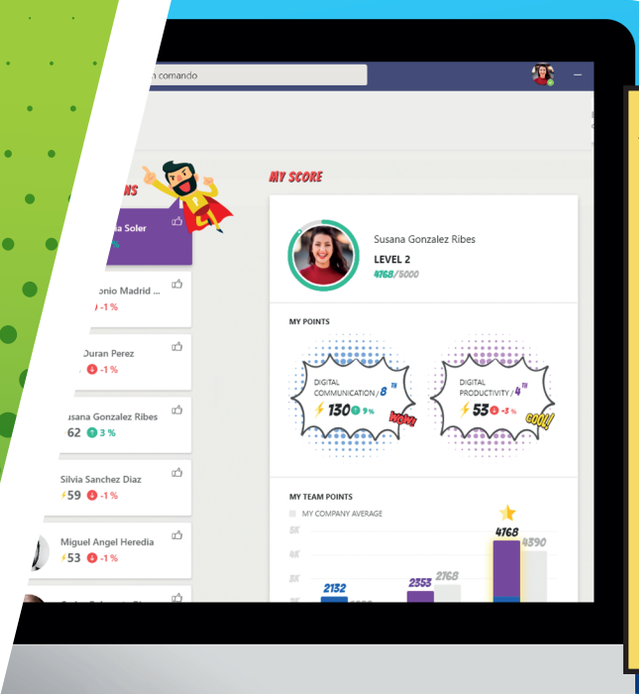


cool!

TEAMS CHAMP

MY TIP OF THE DAY:

TeamsChamps offers an Office 365 **best practice** for me.



MY SCORE:

wow!

- Only I know my score, unless I'm a **champion** and in the TOP 10.
- I can see what's **my position on the whole company** and **on my team.**
- Red or green arrows indicate if I climb or low position.
- You can praise your teammates giving *Champs (likes)* if you believe they've done a good job.
