

The Peltarion AI platform

The fastest AI infrastructure you will find.

A deep learning platform that allows you to build commercial AI-powered products and services at speed and scale.
By putting the power of AI in the hands of your domain experts, across the entire organization.

*Work together as an organisation
to create new business growth.*

*With structure,
automatic documentation,
and version handling.*

*Run as many projects as
you want in parallel.*

*Utilize the cloud processing
power of Microsoft Azure
to scale at will.*

*Work with your
data directly in
Microsoft Azure.*

*Web based access for smooth
collaboration across multiple
roles and perspectives.
Evaluate results in real time.*

*Deploy your AI-models into
real-life products and
services with one click.*
