Automate and Sync Shopify Orders and Product Information in Microsoft Dynamics 365 Business Central:

- Automate Shopify order retrieval; ensuring you'll never miss an order.
- Send Shopify order shipment and payment capture information in real-time.
- Create customers based on Shopify customers.
- Send product inventory quantities that Shopify can show as available for sale.
- Send pricing to Shopify.
- Maintain additional product information such as additional images and long html descriptions.
- Send new or updated product information to Shopify; making it instantly buyer-ready.
- CSM is built within Dynamics 365 Business Central. There are no external middle-ware pieces to complicate the integration.
- Manage multiple Shopify stores (B2B, Retail, Specialty) and easily measure their financial impact.
- **Get actionable insight into your eCommerce business that help drive smarter decisions, faster.**

eCommerce Businesses: Multiple systems without comprehensive data

How do you know that your eCommerce business is operating at maximum efficiency? Disparate systems mean you're not getting the whole picture – You can't afford to miss customer orders and delay fulfillment.

Challenges

So, how do you increase efficiency and implement cost-saving decisions while managing multiple eCommerce platforms and marketplace channels?

Ideal Solution

Channel Sales Manager (CSM) can handle ALL aspects of your eCommerce business in one location: customer orders, product listings, pricing, and inventory availability, etc.

Your Data in One Place

Perhaps the best part is that all of your data is stored in one place – one App – in the cloud – in the office or on the go! You'll be able to drive informed business decisions in no time.
