

# Planning *by Haldor*

Planning by Haldor is the easiest way for teachers to plan lessons or subjects in Teams for Education with Teams Assignments integrated.

This user-friendly planning tool gives teachers and students a clear overview of plans, assignments and assessments – all in one tab in Teams.

## Benefits

### 1. Customize your planning

Create daily, weekly, monthly or yearly lesson plans, depending on your needs. Plan for all students in your team or for a selected group.

### 2. Easily integrate Microsoft Teams

#### Assignments in lesson or subject plans

Fully integrate new or existing Teams Assignments in your plans.

### 3. Save time & work more efficiently

Save time by working with plans, Teams Assignments and assessments all in one tab. Also review and assess assignments in the same tab, based on learning objectives and learning outcomes.

### 4. Engage students & encourage learning

Create immersive and interactive plans with embedded material such as Microsoft Sways, Microsoft Stream, Microsoft Forms, YouTube videos and much more to engage students and encourage learning.

### 5. Easily monitor student's learning progress

Get a summarized overview of all assessments making it easy to follow each student's learning progress and to see if learning outcomes are being achieved.

### 6. Better communication & collaboration

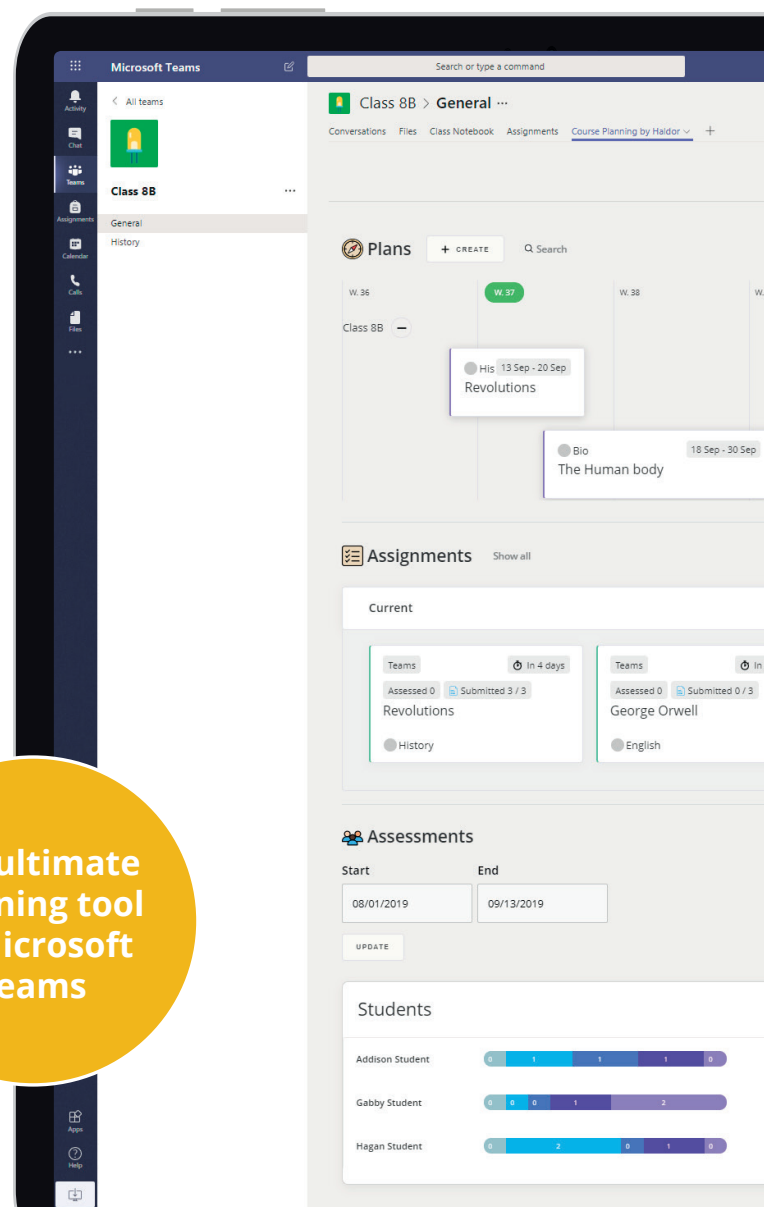

Integrate your OneNote Class Notebook in plans to further facilitate communication with your students. Share plans, assignments and assessments with students in an instant.

### 7. Create your own curriculum

Easily create your own curriculum with customized goals and learning objectives as well as curriculums with pre-set goals and learning objectives.

"The best thing is having everything I need gathered in one place, directly in Microsoft Teams."

**Annica Nyberg, teacher, Sweden**

The ultimate  
planning tool  
in Microsoft  
Teams
