Give your new hire an impressive experience

CEM Onboarding Software

Gain control over your onboarding process and give your new hires an easy transition into their position. CEM Onboarding software takes your new hire on the easy track to adapt the company culture and ensures productivity from day one.

Every person is unique and it is HR's task to induct a new employee feel comfortable and be one among the team. Gain control over your onboarding process and give your new hires an easy transition into their position.

WHAT WE OFFER

Plan

Based on the position, a new hire needs numerous things like laptop, place of work, access keys, IT rights, security clearance, uniforms, field gadgets etc. You can make request for all, in this system.
In addition, the system helps you plan the KPI goal setting, training needs, advance communication to peers and relevant departments.

Attract

CEM Onboarding is hosted on Microsoft Azure cloud. This gives you the advantage of one the world's best 'digital transformation' engine. You can connect this system to any Applicant Tracking portal and any HR system.

Compliance filing

Your HR people have the responsibility to complete numerous forms and formalities. This varies based on location, department and position. This software keeps track of all norms and alerts / escalates till the processes are totally completed.

People progress

Besides compliance formalities, the objective of onboarding to make the new employee feel comfortable and make her / him productive as soon as possible. CEM Onboarding software can be configured to give an 'impressive' first day experience for the newly joined person.

WHAT OUR CUSTOMERS ARE SAYING …

"Hiring the perfect candidate is a very important task. We needed a comprehensive system that would scale to our growing needs. We needed a comprehensive system from planning to onboarding. CEM was able to successfully deliver the system that fulfilled all our needs. It was within budget. They configured the software and trained us very well."

Marissa Orbanek, Specialist, General McLane

Microsoft Azure

Microsoft Azure is an ever-expanding set of cloud computing services to help your organization meet its business challenges. With Azure, your business or organization has the freedom to build, manage, and deploy applications on a massive, global network using your preferred tools and frameworks.

WHY AZURE

BE FUTURE-READY

Continuous innovation from Microsoft supports your development today, and your product visions for tomorrow. With 1000+ new capabilities in the past year, you can build on the latest advancements in AI, blockchain, Kubernetes, containers, and databases to keep you ahead of the curve.

Our enterprise grade analytics solution outperforms the competition, costs less, and is fully compatible with your existing development, BI, and data science tools.

BUILD ON YOUR TERMS

You have choices. With a commitment to open source and support for all languages and frameworks, build and deploy how you want to. Take advantage of the full-featured, integrated development environments with built-in support Visual Studio and Visual Studio Code, the most popular IDEs trusted by 15M+ developers.

We embrace open source, drive innovation through collaboration, and contribute back to the community.

OPERATE HYBRID SEAMLESSLY

On-premises, in the cloud, and at the edge—we'll meet you where you are. Integrate and manage your environments with tools and services designed for hybrid cloud.

Enhance security, simplify access, and set smart policies across your different environments with a single identity platform trusted by 90% of enterprises globally.

TRUST YOUR CLOUD

Get security from the ground up, backed by a team of experts, and proactive compliance trusted by enterprises, governments, and startups.

With a $1B+ investment in security R&D and 3,500 cyber security experts, security is foundational for Azure.
