Sked 24

Make every hour count

Maximize the occupation of your medical offer

Sked24 is a management platform that builds patient's loyalty. We use state-of-the-art technology to transform a sporadic interaction with your patient into a long-term relationship.

Sked24 is a highly flexible and scalable solution, because it easily adapts to the size of any health care center.

We deliver all the necessary tools to plan, exhibit and manage your medical offer in a simple and friendly way.

Why Sked24?

Sked24 will bring clearly identifiable benefits to your organization.

A few of these benefits are:

17% increase in sales

- Connect with your patients wherever they are

50% increase in the usage of Digital Channels

- Contactability and conversión

25% increase in call center effectiveness

PLAN

- Scalable model for individual providers and healthcare networks
- Centralized planning for all medical areas (Consultation, Rx, Lab)
- Optimize your offer by using our multiple resource and multiple services features

We optimize your performance through central planning

EXHIBIT

- Access through different channels with an intuitive and responsive design
- Flexible and segmented searches according to the user's profile
- Indications for preparation of individualized tests for patients

Bring the patient to the center with customized and effective search

MANAGE

- Configurable segmentation based on clinical and business rules
- Manage confirmations with Artificial Intelligence
- Transversal model of business intelligence with the main KPIs preconfigured

Take your attention to another level

With Sked24 we expect to close an annual increase of around 25% in our sales of medical consultations, procedures and images. It will allow a more efficient 360 degree management, making it easier for the patient to travel and helping our doctors attend to a greater number of patients per day.

- Leonidas Rosas, General Manager– Clínica Alemana Osorno

How Sked24 helps your organization achieve its goals

Loyalize your patients

- Loyalize your patients through care plans and improve adherence to treatments with WhatsApp reminders.

- Automate and control the communication between patient and provider/doctor

- We increase the activity per patient. With preventive models we can establish demand predictions.

Improve the productivity of your resources

- We provide a platform for efficient, flexible and intuitive planning for all types of resources.

- We have intelligent multi-resource planning models combined with commercial and clinical rules, which allow an increase of up to 25% in resources availability.

- Higher productivity means more sales.

Sked24 - Access to Care
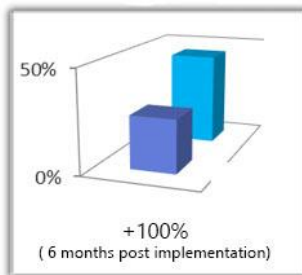

Fast Access to Health Services

Our promise for your business

Sked24 helps optimize the allocation between your medical offer and the demand of your patients.

Maximize the value of your offer

- *__for patients:__* through programs for guidance to health

- *__for doctors:__* through optimization of their time and patient segmentation

- *__for the provider himself :__* through the traceability of the whole commercial process, which allows the tracking of opportunities

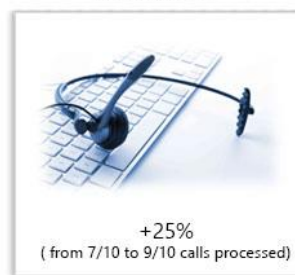

Use of digital channels

50%

+100%
(6 months post implementation)

Increase opportunities

+17%
(6 months post implementation)

Effectiveness of call center

+25%
(from 7/10 to 9/10 calls processed)

Real time visibility of resource use rate

Clear benefits for your business

- Event management applying Artificial Intelligence with WhatsApp

- Manage demand according to the income cycle

- Loyalty of patients through care plans

Our studies show that the vast majority of customers use only 72% of their capacity. In times of great demand for health services it is important to rely on technology that allows you to expose your clinical offer in the most attractive, efficient and friendly way.

Sked24 - Make every hour add up!
