From the calculation to the final invoice. BE-Crafts supports you in your project execution.

Is your project business profitable?

Can you estimate in advance whether a project is worthwhile for you or not?

Do your clients always pay their bills?

Is your supplier in default with the orders

From first customer contacts and costing to purchasing and placing to financial management and controlling: BE-Project stands out with its role-based user interface. Your employees always have an overview of all their tasks and the information that is relevant to them.

Your benefits with BE-Crafts:

- Fully integrated into Microsoft Dynamics 365 and certified by Microsoft
- The BE-Crafts app can be expanded by adding various additional modules
- All common interfaces for your daily work are included
- Full-text search for all your data - like documents, addresses, and items
- fast and easy to learn, easy to use
- Safe, reliable and inexpensive

Benefit from our industry know-how and the globally successful ERP platform Microsoft Dynamics 365 Business Central. The BE-Crafts add-on provides you with exactly the functionalities you need to successfully complete your projects.

Calculate your success - with BE-Crafts!

Supported editions:

This app supports both the Essential and Premium edition of Microsoft Dynamics 365 Business Central.
