

Use Dynamics provides contextual video help

Contextual help inside Business Central

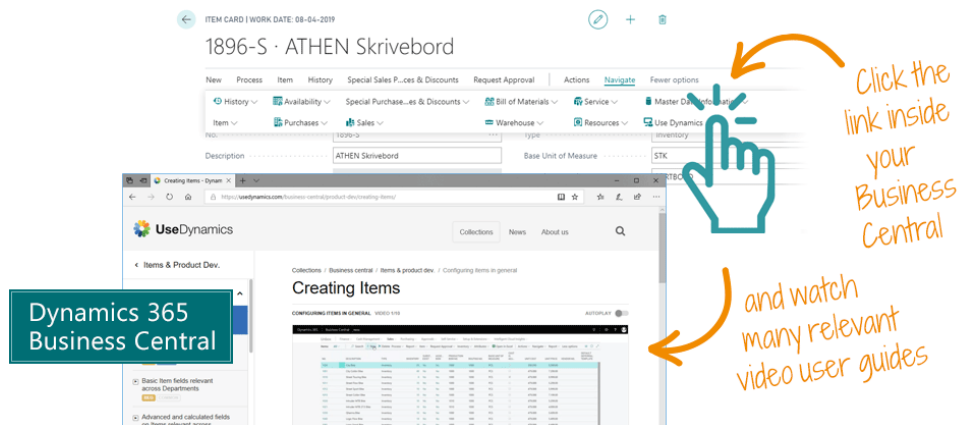

Once installed, the Use Dynamics app adds a help link to all the places inside your Microsoft Dynamics 365 Business Central, where a video user guide is available.

When you click the link, it directs you to the relevant video – or collection of videos.

Free of charge

The video portal UseDynamics.com is free of charge to use. No user account is needed.

You can visit the portal right now – and watch all the videos. And with the Use Dynamics-app for Business Central, you get contextual links inside your Business Central, so it's easy to quickly find the right video.

Benefits

- Easy to install – no configuration
- Free of charge to use
- No need for consulting services

Main features

- Access to video user guides directly from inside Microsoft Dynamics 365 Business Central.
- Provide user help to all your colleagues using Microsoft Dynamics 365 Business Central.
- Get help configuring your solution.
- No limit to number of users or how much you use it.

Available from Microsoft AppStore
