EXPENSE CONNECT

Expense Connect is an add-on for Dynamics AX 2012 and D365 F&O that allows your organisation to pick the expense management & corporate card solution that best suits your needs, while ensuring that a tight integration to your projects module is maintained. Expense Connect can also identify which transactions are reimbursable to the employee and which transactions should be billed to clients, virtually eliminating administration of expenses in Dynamics.

Here's just some of the expense management and corporate card systems that Expense Connect can work with.

When it comes to expense management and corporate card solutions in a **MS Dynamics AX & D365 F&O** implementation, then for many organisations this is unfortunately an afterthought and they end up using an expense management and corporate card solution that's not fit for purpose, which can creates large admin overheads and frustrations with the employees.

Having a good platform for registering expenses and managing corporate cards is therefore essential, as the right choice typically is able realise the following benefits for your company:

- Increased employee satisfaction
- Reduce errors in entering expenses
- Reduce time spent on reviewing expenses
- Increase visibility of project profitability
- Reduced time spent on preparing invoices
- Making correct expense reimbursements
- Increase VAT refunds

Combining this with the other Connect products, **Time Connect & HR Connect** will give you the flexibility to pick the ultimate workforce management and engagement solution.

TIME CONNECT

Time Connect is an add-on for Dynamics AX 2012 and D365 F&O that allows your organisation to pick the time management solution that best suits your needs, that being simple mobile apps all the way up to complex geofencing solutions, while ensuring that a tight integration to your projects module is maintained. The Time Connect solution has already been validated with platforms such as Harvest, Replicon CTime, Toggl, TimeTracker and supports many more.

For most organisations implementing **MS Dynamics 365 F&O**, the project timesheets solution is often an afterthought. As all of the energy is spend defining approval structures, cost and revenue rules for the projects that the time is registered against. And then without much thought to the end user experience the standard timesheet solution provided by Dynamics is rolled out. Unfortunately this can result in large admin overheads, lost revenue and frustration with the employees.

Having a good platform and mobile solution is therefore essential, as picking the right platform for your business typically can realise the following benefits:

- Increased revenue
- Improved cash-flow
- Increase employee satisfaction
- Reduce errors in time entries
- Reduce admin time
- Reduction in license costs

Combining this with the other Connect products, Expense Connect & HR Connect will give you the flexibility to pick the ultimate workforce management and engagement solution.

HR CONNECT

HR Connect is an add-on for Dynamics AX 2012 and D365 F&O that allows you to connect with the HR system of your choice. When implementing a new ERP system there's quite often some trade-offs related to the HR Department. A costly integration can be made, the HR system can be moved into the ERP system or there's going to be large overheads in keeping the employee information in sync between the two system.

With HR Connect that's now a thing of the past, you can now integrate your Dynamics system with the HR system that best supports you in attracting, developing and retaining talent. We have worked with multiple of the largest and most innovative HR systems to guarantee that the HR system of your choice is deeply connected with your Dynamics environment. HR Connect can create and maintain the following based on data from your HR system.

- System users
- Worker records
- Employment
- Suppliers (for reimbursement of workers)
- Bank account details
- Project resources

So start focusing on what matters, reduce cost and increase employee engagement and satisfaction by selecting the HR system that truly supports your business the best, and use HR Connect to bring the necessary data into Dynamics hassle free.

We have validated the connector with multiple HR systems such as HiBob, Workday and BambooHR, so even if your HR system of choice isn't listed then it's very likely that HR Connect can still support it.

Combining this with the other Connect products, Expense Connect & Time Connect will give you the flexibility to pick the ultimate workforce management and engagement solution.
