Meet the future of intelligent information management, powered by Microsoft Azure AI

Microsoft Azure

ABOUT ARCHIVE2AZURE FROM ARCHIVE360

Archive2Azure is an intelligent, open-standard archiving and records management platform that reduces the costs (by as much as 90%) of storing and managing massive volumes of data while meeting complex legal and regulatory requirements – 100% deployed in YOUR Azure tenant for unparalleled information and infrastructure security.

WHAT WE OFFER

Control infrastructure security

Isolated and dedicated tenant for each customer

Full support for customer-defined security policies

Transparent security audits and monitoring

Control information security

Customer-controlled / customer-managed encryption keys
PII and sensitive data metahashing

Meet in-country data residency and disposition requirements

Open-standard platform

Flexible access to eDiscovery functionality

Customer-controlled scalability

Open search APIs powered by Apache Lucene with Machine Learning analysis for data tagging and analysis

Azure-powered intelligence and analytics

Archive2Azure's use of tiered Azure Blob Storage, Machine Learning, AI, Cosmos DB, and Cognitive Services transforms data into valuable and actionable business intelligence

WHAT OUR CUSTOMERS ARE SAYING

"Having everything in our own Azure storage account, in its native format, is very helpful to us. But what we really needed was access for our legal team and absolute data fidelity. That's why we moved forward with Archive2Azure."

"An AI model is only as good and complete as the data it can operate on and learn from. Unique to Archive360 is its position as a sole-source provider of both accelerated, compliant data onboarding and AI-enabled modernization of ANY data type."

ARCHIVE360

Microsoft Azure

Microsoft Azure is an ever-expanding set of cloud computing services to help your organization meet its business challenges. With Azure, your business or organization has the freedom to build, manage, and deploy applications on a massive, global network using your preferred tools and frameworks.

WHY AZURE

BE FUTURE-READY

Continuous innovation from Microsoft supports your development today, and your product visions for tomorrow. With 1000+ new capabilities in the past year, you can build on the latest advancements in AI, blockchain, Kubernetes, containers, and databases to keep you ahead of the curve.

Our enterprise grade analytics solution outperforms the competition, costs less, and is fully compatible with your existing development, BI, and data science tools.

BUILD ON YOUR TERMS

You have choices. With a commitment to open source and support for all languages and frameworks, build and deploy how you want to. Take advantage of the full-featured, integrated development environments with built-in support Visual Studio and Visual Studio Code, the most popular IDEs trusted by 15M+ developers.

We embrace open source, drive innovation through collaboration, and contribute back to the community.

OPERATE HYBRID SEAMLESSLY

On-premises, in the cloud, and at the edge—we'll meet you where you are. Integrate and manage your environments with tools and services designed for hybrid cloud.

Enhance security, simplify access, and set smart policies across your different environments with a single identity platform trusted by 90% of enterprises globally.

TRUST YOUR CLOUD

Get security from the ground up, backed by a team of experts, and proactive compliance trusted by enterprises, governments, and startups.

With a $1B+ investment in security R&D and 3,500 cyber security experts, security is foundational for Azure.
