Virtualization
helps address
specific business
needs

ENHANCED SECURITY WITH SIMPLIFIED CONFIGURATION

AZURE AD SECURITY SERVICES

Sophisticated security services easily configured through Azure AD (e.g. MFA, CA, etc.)

REDUCED ATTACK SURFACE

Reverse connect technology eliminates the need to open inbound ports to the VMs

GRANULAR ACCESS CONTROL

Multiple admins can be assigned role-based access control

ISOLATED USER SESSIONS

Isolated user sessions in both single and multi-session environments

We will work with on:

- **A full assessment of your current infrastructure, including systems, tools, and procedures**
- **Image build design strategy**
- **License management strategy**
- **Security recommendations**
- **Cost calculation of Azure Virtual Desktop deployment**
