Accelerate your enablement and adoption of Microsoft's Azure VMware Solution today with our Kick Start service.

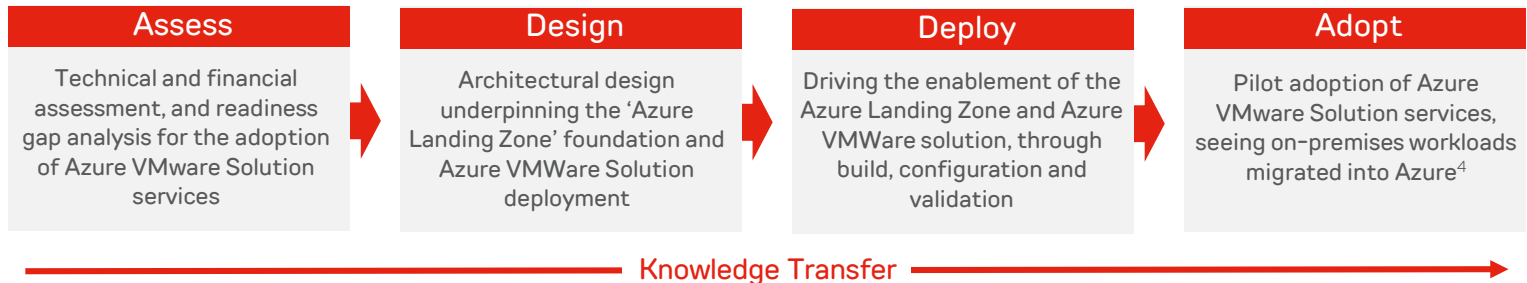

Seamlessly integrate your VMware environment with Azure, enabling the flexibility to determine the best location for workloads, using VMotion to seamlessly migrate VMware-based workloads to Azure (and back), increasing productivity with elasticity, scale and fast provisioning cycles.

Limited technical upskilling required

Keep managing your existing environments with the same VMware tools you already know - vSphere Client, NSX-T, Power CLI, while you plan and enable the future modernisation of your applications with Azure native services. Azure VMware Solution is a first-party Microsoft service, verified by VMware, that runs on Azure infrastructure.
