

PaperStream NX Manager

Cloud, Virtual Machine & On Premise

PaperStream NX Manager gives businesses a new choice in document scanning and enables resilience in times of recovery and opportunity. This new cloud-enhancement technology empowers hybrid workers with more efficiency and productivity, allowing them to adapt to changing demands. Architected for scalable growth, the NX Manager's powerful online tools reduce deployment and adoption costs.

- Increased Employee Efficiency
- Vertical and Horizontal Scalability
- Simple Centralized Management
- Reduced IT & Human Costs

Scanning Evolutions

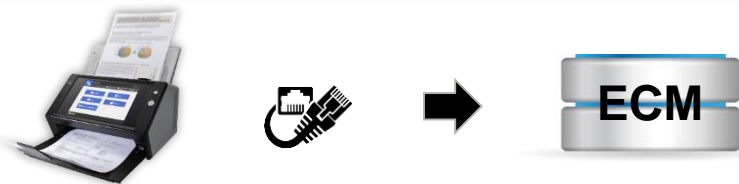

Traditional ECM Capture

- ⚠️ Installation, Drivers
- ⚠️ Limited Placement
- ⚠️ PC Costs & Maintenance

Network Scanners

- PC Less
- QC Onboard
- ⚠️ Slow
- Shared
- ⚠️ More Expensive
- ⚠️ No NFC Authentication

NX Manager

- Scalable
- Inexpensive
- ⚠️ Limited QC
- NFC Authentication
- Multiple Deployment Options
- PC Less

Why NX Manager?

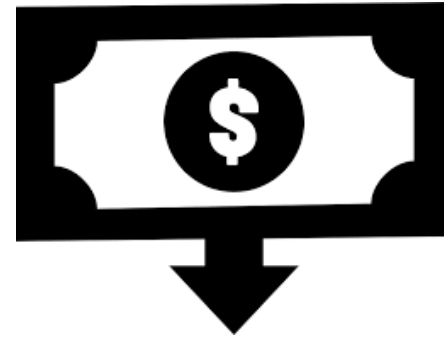

- Simple change management and workflow
- Reduce IT resources and costs
- Reduced document chain of custody
- Reduced maintenance and deployment costs
- Accurate flow and simple authentication
- Increased employee efficiency
- PC-Less Scanning & Remote Deployment

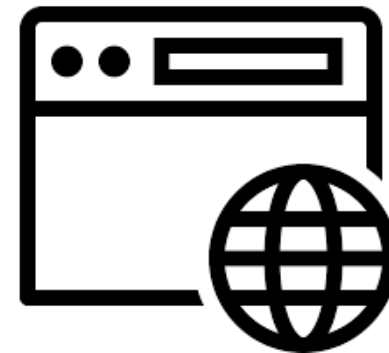

Secure

Simple

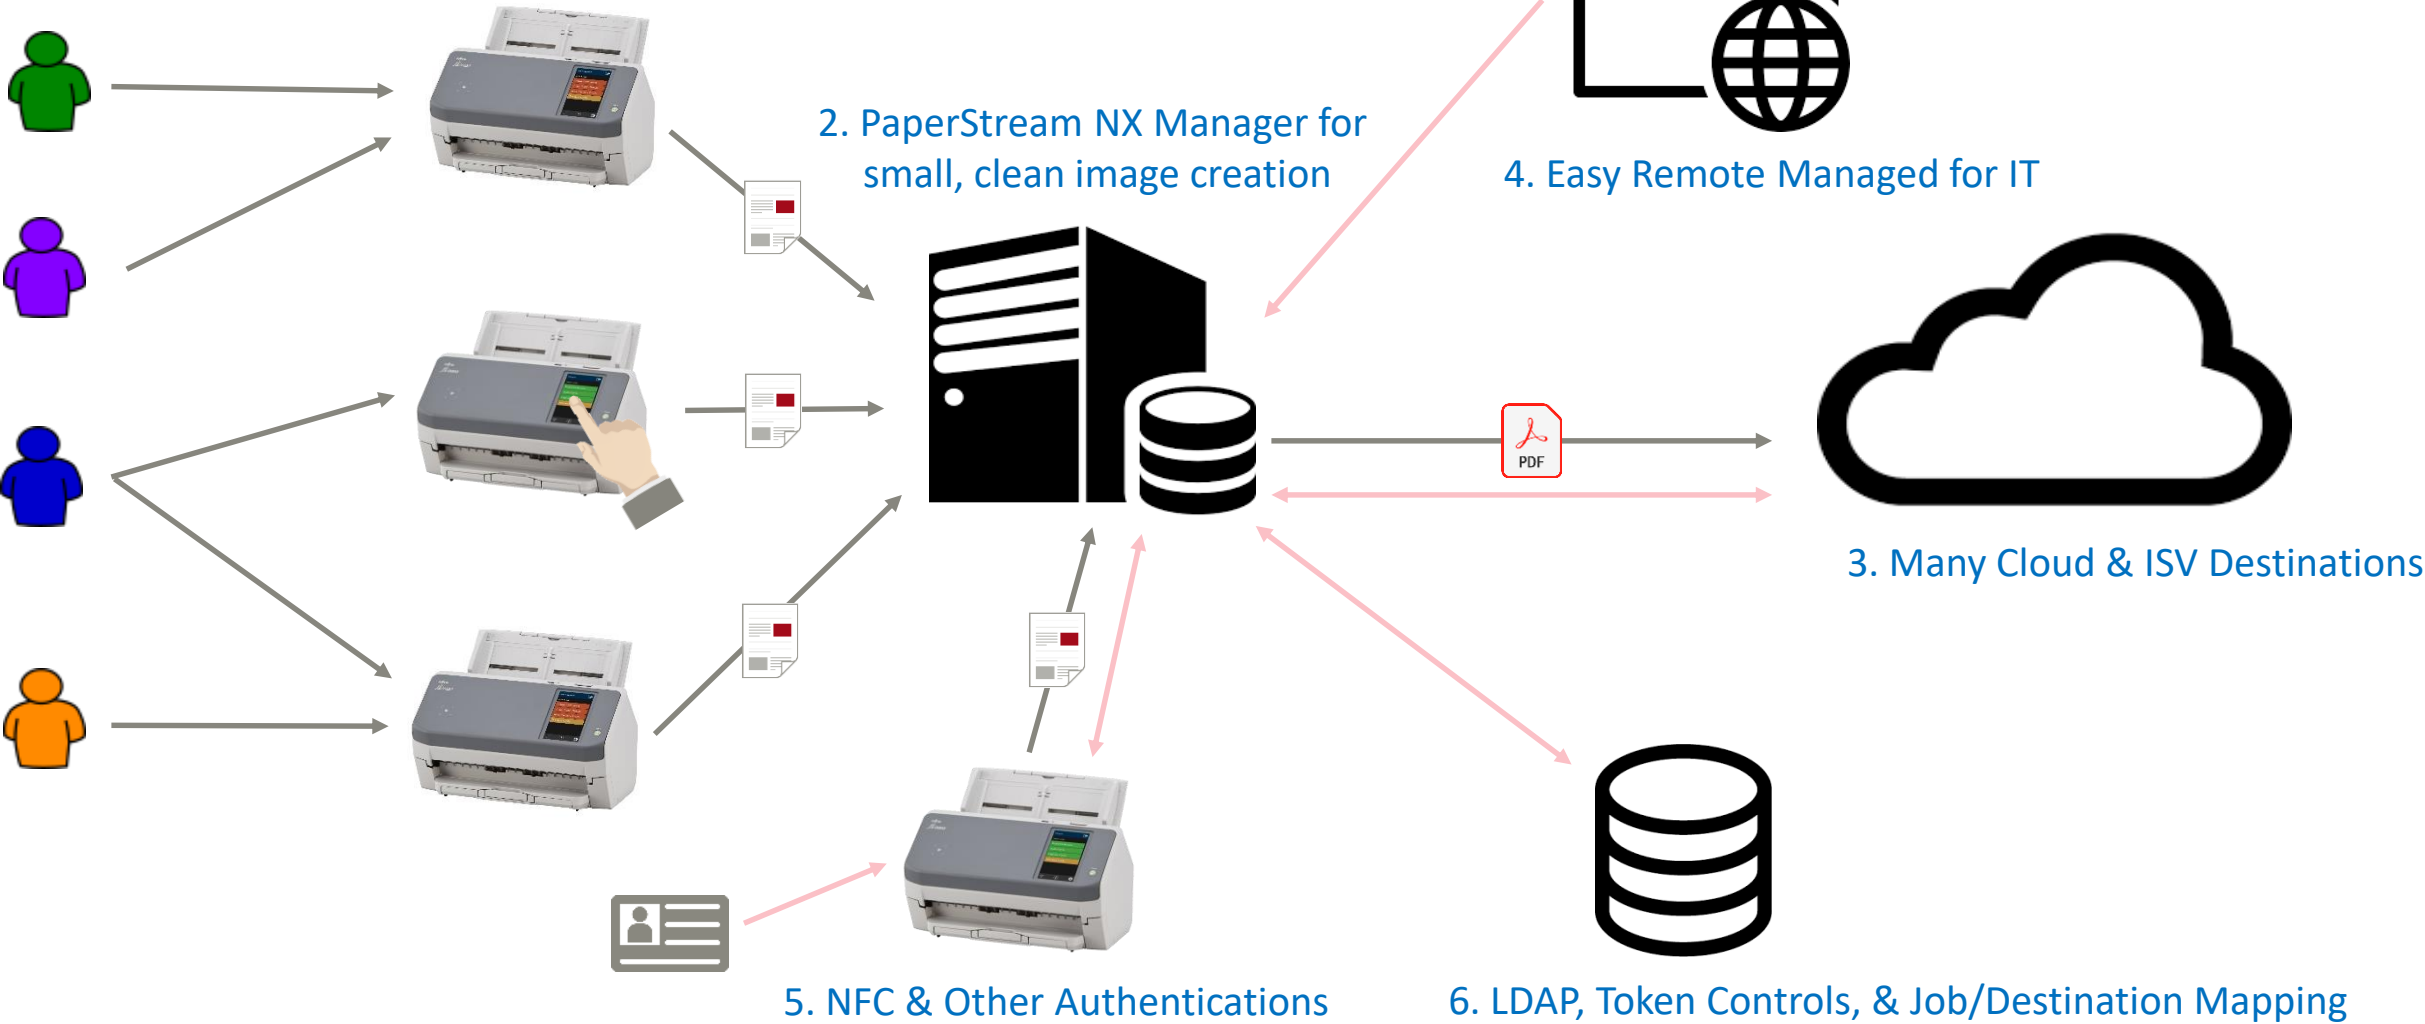

Cost Savings
